## R.A.F. Wings Over Burma—Warning to Nippon

With occupation of French Indo-China by Japan, Great Britain and Nippon for the first time meet each other on a common frontier. Britain, alive to dangers of any further drive south, is rushing preparations in this Pacific outpost.

## Final Bulletins

### Legalize Jail Term

COPENHAGEN, German-occupied Denmark (AP)—The lower House of the Danish Parliament canceled the Legislative immunity of its three Communist members today to legalize their imprisonment by the justice ministry.

### JAPS FACE CRISIS

TOKYO (AP)—Premier Prince Fumimaro Konoye told government and war industries representatives today Japan was facing the gravest crisis in her history, Domei said, and that total mobilization was needed to overcome the emergency.

### PRASED BY JAPS

TOKYO (AP)—Domei news agency quoted a commentator today as saying the approach of winter would not affect the German-Russian war but warned of the strength of Russia's spirit. "The Russians have a radical, fatalistic view of life and that counts most," the commentator was quoted as saying.

"It is this fatalistic view of life which produces strong resistance and power. This is a grave question for Germany."

### 'Enemy Grows Weaker, More Anxious'—Wavell

SIMLA (AP)—The Axis is showing by lies that it is weaker and more anxious, Gen. Sir Archibald P. Wavell, commander-in-chief in India, declared today.

"There are many signs the enemy is growing weaker," said Gen. Wavell, "and that from arrogant confidence he has passed into a restless anxiety which will turn to despair as he sees his ruin approach."

"There is a sign by which you may judge an enemy's growing fear—the growing recklessness of his life."

### 'TOVARICH'

LONDON (CP)—Mrs. Winston Churchill, attending a London exhibition of Soviet life today as one manifestation of Anglo-Russian friendship, today asked several questions of a doorman who looked like a Russian.

The doorman, obliging but not recognizing the wife of the Prime Minister, addressing her as "tovarich" (comrade).

The doorman was an Irishman named Shaughan.

### Local Events

Esquimalt Garrison Band will play retreat tonight at 8, weather permitting, in Parliament Square.

The regular cheer-up concert in Beacon Hill Park has been canceled due to rain.

### 21 Join Army

Twenty-one men joined the army in British Columbia yesterday, 16 more than over the holiday week-end. Returns are:

### Buddhist Peace Plea

BANGKOK, Thailand (AP)—Thailand has appealed to world powers to cease hostilities, officially citing as the motives the teachings of Buddha, love for fellow beings and a desire to promote happiness.

A little Oriental nation of 15,000,000 people, she explained in publishing the appeal that the conflict tends to spread further.

### Qualicum New Ship

TORONTO (CP)—A ceremony which officially added two more ships to the Royal Canadian Navy took place at the Lake Ontario waterfront today when the minesweepers Qualicum and Westport were christened.

### Fisherman Fined

VANCOUVER (CP)—Disobedience of orders given for the protection of the Pacific coast is not to be treated lightly, Magistrate C. L. Fillmore told Olaf Anderson, fisherman, in district court today. When Anderson was fined \$10 for failing to obey an order to stop at the naval examination vessel here early today.

### Harvesting Delayed

OTTAWA (CP)—Almost all sections of the prairie provinces have experienced cool, showery weather during the past 10 days, which has generally delayed harvesting operations. In Manitoba, threshing operations are virtually at a standstill.

## Pioneer Block Changes Hands

Purchase of the northerly half of the block bounded by Government, Yates and Broad Streets, was announced by D. W. Campbell, of the Cameron Investment & Security Co. Ltd. today. No price was released, but the property was reported to have an assessed value of approximately \$175,000.

The sale covers the complete Yates Street front from Government to Broad, and extends southerly for 132 feet on each of the latter.

The property was bought from the trustees of the Johnston estate, with Mr. Campbell and F. E. Winslow handling the deal.

All improvements for which the new owners can secure permission are planned on the buildings, Mr. Campbell said. They will start with an external paint job which will make the fronts a uniform grey with black trim. When authority for the undertaking can be gained from Ottawa, the new owners plan to establish a central heating plant to serve the different stores and offices.

The block includes the old Delhi Hotel, the premises of Hiscock & Clea, which was operated as a drug store, under another partnership on the same location for 64 years, and the site of what was formerly Stewart's Saloon, a popular rendezvous for old-timers here.

Present owners, who took control of the building yesterday, plan no change in tenancies.

## Nazi Troops in Bulgaria

BERLIN (AP)—Authorized German sources today indirectly admitted the existence of German troop concentrations in Bulgaria, bordering on Turkey.

Commenting on reports to this effect, they said: "It is perfectly understandable that a certain counter-measure is now to be taken to the Russian closing of the Turkish-Iranian border."

Dealing with the return to

Germany of Franz von Papen, German ambassador to Turkey, the same sources said, however, that he was coming mainly to consult a physician. Von Papen, and his wife left Istanbul by airplane today for Berlin.

Istanbul diplomats friendly with Axis sources said it was rumored he would not return. It was said one of the new school of Nazi diplomats may take his place.

## 'U.S. to Fight' Says Smuts

CAPETOWN, Union of South Africa (AP)—Field Marshal Jan Christian Smuts, Premier of the Union of South Africa, declared today the United States was preparing to enter the war and would "fight with all her power."

Speaking at Pretoria, the capital, Smuts said the third year of the war would be the most critical and most decisive. Then he added:

"But in my opinion our position is better than at any time in the last two years. The United States not only is helping Britain, but is preparing to come in the struggle."

The Prime Minister asserted the United States would "yet fight with all her power to win the war."

## 11,109 Planes Lost in War

LONDON (CP)—An Air Ministry tabulation today, on the second anniversary of the declaration of war, placed Axis losses for the first two years of war at 8,020 planes, and British losses at 3,089 planes.

An incomplete list of losses in various theatres was given as:

Over and around Great Britain—Axis 3,629, Britain 884.

Over Germany and occupied territory—Axis 690, Britain 1,334.

Middle East—Axis 2,087, Britain 383.

Western front in 1939-40—Axis 957, Britain 379.

These figures, representing only losses in fighting with Britain, do not include Axis losses on the Russian front.

### End of the Tourist Season

## More Canadians in England, Victoria Troops in Contingent

A BRITISH PORT (CP)—The third Canadian division has been raised almost to full strength with arrival at this war-scarred port of a large contingent of troops, representing all parts of Canada, from Halifax to Victoria.

Major-General C. B. Price of Montreal, divisional commander, who greeted the new arrivals, acknowledged with a wave of his cap, soldiers' cheers and shouts of "bring on the war," and "we have come to win the war." The big transports were escorted safely from an east coast Canadian port by warships of the Royal and Royal Canadian navies.

The tin-hatted soldiers, anxious to get ashore to join the 100,000 other Canadians guarding vital areas of the United Kingdom, included a Pacific coast infantry regiment, a western Canada rifle regiment, a Quebec reconnaissance regiment, a detachment of the Royal Canadian Engineers anti-aircraft units of the Royal Canadian Artillery, and an ambulance unit of the Royal Canadian Army Medical Corps, recruited mostly from Ontario, as well as a mobile laundry department of the Royal Canadian Ordnance Corps, which included French Canadians and western Canadians, who had given up all kinds of jobs to keep the army's linen clean.

Gen. Price, who was accompanied by Rear-Admiral Sir Arthur Bromley of the Dominion's Office, brought a message from Prime Minister Mackenzie King, which was read as the general stood on the after deck of each of the transports, with soldiers crowded on the companionways, around the hatches and in the lifeboats.

"I send my warmest greetings to you, my fellow Canadians, upon your arrival in the United Kingdom," the message said. "You have come to Britain to help in breaking the bonds which now enslave so many countries in Europe. In these isles you will be defending the citadel of freedom."

"No greater honor can fall to your lot. I wish the opportunity were permitted me to welcome you all in person. It would give me infinite pleasure to do so and tell you how proud I am of the Canadian forces which I have visited since my arrival."

"You will, I know, be worthy rivals in maintaining the high standards already set by your comrades over a period of almost two years' hard training and patient preparation for battle. For one and all I pray God's guidance and protection."

Gen. Price's greetings, interrupted by a practice burst of anti-

aircraft fire by one ship in the teeming harbor, consisted of a message of "welcome back to the family," and reminded the troops their safe and pleasant passage was due to "the grand work of the navy and the merchant marine."

### READY NOVEMBER 1

He said Lt.-Gen. A. G. L. McNaughton was sorry he was unable to make the trip to the port of debarkation and added the corps commander had warned the division to be ready to take its place beside other units of Canada's overseas army by November 1. Between now and that date, Gen. Price said, the men would undergo heavy training.

Ear-shattering cheers met Gen. Price's announcement the men would have landing leave in a few days.

Sir Arthur, welcoming the Canadians in behalf of the British government, said: "Lord knows, we want your help."

It was estimated 200 Americans were sprinkled among the various units. Many of the soldiers expressed disappointment their crossing was so peaceful.

Escorting warships dropped depth charges once, but there was no evidence of submarines in the vicinity. The major complaint was that "there was too much fog."

The men milled around the Canadian Press representative, the only newspaperman to meet the convoy, when they learned

news of their arrival would be cabled back to Canada, and nearly 300 of them shoved into his hands slips of paper, pieces torn from cigarette packages, on which they had scribbled their names and home towns. Some added messages.

### VICTORIANS

Ptes. B. Biscoe and L. G. Woodcock, Vancouver bank clerks, who had joined a west coast infantry regiment, sent a joint message: "Wish all our friends over there in B.C. the best of luck." Pte. A. Kozak of Victoria said: "It took a long time to get here but we'll make up for lost time." L.-Cpl. R. T. Nash of Vernon said: "We've come over to win this war," and a group around him echoed, "Yes, sir, that's the idea."

The party included R.Q.M.S. Jim Sutherland of Duncan, Sgts. W. Baxter of Vernon, W. T. Pearson and A. R. C. Wyatt of Victoria, L.-Cpl. R. Hammond of Penticton and Ptes. Steve Miller, Vancouver; W. Bleakley, T. A. Norton, W. J. Holmes of Victoria; A. Flett of Peace River; W. Edwards of Enderby; Gordon Empey of Brandon, Man.; H. W. Bonwick of Moose Jaw, Sask.

Rifeman A. J. Grive of Prince Albert, Sask., said he and his mates of a western Canada rifle regiment crossed to Britain "because there are some Nazis to capture."

A Quebec reconnaissance regi-

ment which L.-Cpl. R. O. Osmond of Montreal said had chosen itself to be the "spearhead of the Canadian army" boasted representatives of the eastern provinces and a number of American states.

Gnr. C. L. Brock of London, Ont., was busy demonstrating to a small group how his anti-aircraft battery is "going to knock 'em down out of the sky." His audience included Gnr. A. M. Adams of Vancouver.

### WOMEN DRIVERS

A group of 14 Canadian women, a number of whom gave up Red Cross activities in Canada to do work in the war zone, arrived to join the Mechanized Transport Corps as drivers.

The government granted special permission for the women to enter the country. They traveled under the charge of Mrs. P. W. Arnold, former commandant of the Toronto detachment of Red Cross transport.

Mrs. W. Bowron, commandant of the M.T.C., and staff officer Mrs. Leslie Fenton—Ann Dvorak of film fame—met the Canadian women.

The party included Mesdames Donald Meyers, Himla Farquharson and John Price of Calgary, J. S. Slyter of Halifax, Isobel Prentice of Montreal, Heloise Bradbrook of London, Ont., and Misses Amice Caverley of Oakville, Ont., Margaret Newton of Sherbrooke, Que., Janet Porteous of Montreal and Mrs. Frances Gill of Ottawa.

## Germans Hurlled Back

Canadian and Associated Press

Twin Russian counter offensives were reported today to have hurled back the German thrusts toward Moscow and Leningrad.

In this resurgence of Red Army power the Russians said they had retaken 22 villages in a 10-day, 30-mile counter thrust on the centre of the main front before Moscow, destroyed an entire division of the Elite Schutzstaffel (Blackshirt Hitler Infantry), and driven the Germans back three miles from their advanced positions before Leningrad.

Leningrad has been under the direct threat. The Germans claimed yesterday to have driven to within 10 miles of the city.

While the Leningrad forces were executing their stroke under the personal command of Marshal Klement Voroshilov, troops on the centre were wrestling an important height from the Nazis, according to the combined accounts of Red Star, the army

newspaper, and Pravda, organ of the Communist Party.

The Leningrad counter-blow may have shattered German attempts to close a ring of steel around the city at Krasnogvardeisk.

### INSPIRED

Voroshilov's arrival among the hard-pressed defenders of Leningrad, Red Star said, "inspired Soviet troops for new heroic deeds and they took an oath to fulfill his orders regardless of difficulties."

Reflecting perhaps new difficulties encountered by the Germans, the Hitler communique today was barren of detail on operations, saying merely "successful fighting actions are in progress."

Reporting an edge in the aerial fighting along the eastern front, the Russians said they had shot down 198 German planes Saturday, Sunday and Monday, with a loss of less than a third of that number from their own air force.

"Our air force continued to deal blows on motorized and mechanized forces of the enemy and his infantry and artillery, and attacked his aircraft on their airdromes," the Russian communique said.

Combined forces of the Red Army and the People's Army which is sworn to die rather than yield Leningrad carried out the counter offensive, Red Star said.

### REBUILDING

Houses, bridges and roads have been rebuilt to within two miles of the front line, it reported, and over-ripe crops are being harvested.

The Red communique acknowledged the loss of the Estonian capital and Baltic naval base, Tallinn, whose capture the Germans claimed last Friday. The war bulletin indicated a stubborn fight was continuing in the same principal defence lines the Red Army had reported holding for almost a week.

## MALAHAT MAY CLOSE NEXT WEEK

The Malahat Drive at Mile 20 probably will be closed next week so that work can be resumed on the project which was suspended in July as an accommodation to tourists.

Since the construction on the highway right of way was suspended contractors have been engaged in clearing a new piece of grade which is to be made part of the main road. Hon. C. S. Leary, Minister of Works, said they were about ready to resume work on the main section. While

## 2,930,000 NAZIS LOST IN BATTLES

MOSCOW (AP)—Pravda, the Communist Party newspaper, estimated today Germany had lost 2,930,000 men in dead, wounded and captured on all fronts in two years of war, and declared that of these more than 2,000,000 were on the Russian front alone.

It might be possible to keep the highway open during the Victoria fair the contractors may require it closed next week, he said.

## Martin's Record Lauded

VANCOUVER—Justice D. A. McDonald of the Court of Appeal, as one of his oldest friends and associates, today paid the following tribute to the Hon. Archer Martin:

"The news of the death of the late Chief Justice Archer Martin has been a great shock to me as I am sure it has been to all of his professional brethren in the province. He was unquestionably one of the ablest and most learned judges we have ever had upon the bench of this province. Lawyers and judges from one end of Canada to the other will learn with deep regret of the passing of a just and upright judge."

## 20,000,000 Combatants Fight for Britain, Russia

By JAMES P. HACKETT  
NEW YORK (AP)—The very thing Britain and France went to war in an attempt to prevent two years ago today—a Hitlerized Europe—virtually is in existence. Although his hopes of making it permanent are faced with the determination of the British Empire and Soviet Russia.

By the sword and the pen the Nazis have bent to their will the peoples of 17 European nations and at this moment are directing invasion of the continent's largest country.

Only three European countries which were neutral in the first Great War remain out of the present conflict—Spain, Switzerland and Sweden.

Others not in this war, but which took part in the last, are Portugal, Turkey and Elze. Some authorities have estimated four-fifths of humanity—about 1,700,000,000 persons—already have had their every-day lives conditioned to participation in the fighting.

Just as this war has raged over

almost the same European territory that felt the tramp of soldiers' feet during the first two years of the last war, so have Africa and the Middle East figured in the fighting.

Between them the British Empire and Russia have thrown more than 626,000,000 persons into their war efforts, probably more than 20,000,000 as combatants or men under training.

Russia in all likelihood has equalled if not surpassed the 12,000,000-man army mobilized by the Czar in 1914-17. Britain, from latest reports, has close to 6,000,000 men—including home guards—ready to defend the British Isles and at least another 2,000,000 men in Africa, the Middle and Far East. During the first Great War the British Empire mobilized 8,410,000 men.

Germany was reported at the outbreak of the war to have had available 6,000,000 men in her armed forces. Mussolini boasted of 10,000,000 "bayonets." How many men Axis junior partners, like Rumania and Hungary, have added to the fighting forces has not been determined.

Including Finnish troops, the Hitler-Mussolini camp probably held more than 20,000,000 fighters when Russia was invaded. Not all these men, of course, were thrown into that conflict. Hitler's headquarters announced early in the struggle that 9,000,000 were fighting on the eastern front on both sides.

### FIRST GREAT WAR

During the first Great War Germany mobilized 11,000,000 men, and her allies Austria-Hungary, Turkey and Bulgaria a like number.

Against them were pitted more than 42,000,000 men from Russia, France, the British Empire, Italy, Japan, Rumania, Serbia, Belgium, Greece, Portugal, Montenegro and the United States in four years of war.

Two years of this war have involved Russia, France, the British Empire, Yugoslavia, Greece, Poland, Belgium, the Netherlands, Norway, Denmark and Luxembourg on one side and Germany, Italy, Rumania, Hungary, Bulgaria, and Finland on the other, plus the territories once Czechoslovakia, Austria, Albania, Estonia, Latvia and Lithuania, and Lebanon, Syria, Iraq and Iran.

Since then more than 7,000,000 tons of merchant and naval vessels have gone to the bottom. Records compiled by the Associated Press show at least 16,000 persons have been killed or drowned and 9,253 are missing in the war at sea.

## Seattle Expects Russian Planes

SEATTLE (AP)—Thirteenth naval district headquarters here awaited today a flash from the distant United States navy air base at Kodiak, Alaska, on the departure of a flying Russian military mission on the second leg of its two-plane hop over United States territory en route to Washington, D.C.

The two flying boats, with 47 aviation experts from Moscow and a Russian diplomatic official from Washington, who joined them at Nome, arrived at Kodiak last night. There was no information on when the Russians expected to take off.

The new navy base at Sitka, about 700 miles due west across the Gulf of Alaska and the north Pacific, appeared the next likely stopping spot.

P. Ivanov, attached to the Russian consulate at San Francisco, arrived here today, saying he had been ordered by his government to meet the expedition.

Neither the Boeing Aircraft Company nor 13th naval district or Sand Point naval air station representatives had any information as to the Russians' plans.

The War Department in Washington announced the Russians are coming to the United States on a "purely technical mission" in connection with airplane production.

### Cases Decrease

WINNIPEG (CP)—Only seven new cases of poliomyelitis and three new sleeping sickness cases were reported today to the Manitoba Department of Health and Public Welfare. Totals for the province now stand at 746 poliomyelitis and 396 encephalitis. No new deaths were reported from either epidemic and the totals in the province remained at eight for infantile paralysis, 26 for sleeping sickness.

## Berlin Hard Hit

BERLIN (AP)—British bombers struck in force at Berlin with explosives and incendiaries overnight in one of the German capital's sharpest air raids in many months and civilian casualties and residential damage were officially acknowledged.

Various places in northern and central Germany and the Rhineland were under attack at the same time, an announcement said, although the result was termed "insignificant damage." "The attack of one bomber unit on the Reich's capital," the German high command said, "failed to reach full effectiveness because of the strong anti-aircraft defence."

Six bombers were said to have been shot down by ground gunners, and to this toll were added 12 British craft declared to have been destroyed by naval forces, marine artillery and pursuit aircraft over the English Channel and the Netherlands and Norwegian coasts.

### REACH INNER CITY

"Only a few planes reached the inner city," the high command said. "There was a small loss in dead and injured among the civilian population, with bombs falling on residential sections."

### USE HEAVIEST BOMBS

LONDON (CP)—British bombers which blasted Berlin last night caused "enormous explosions" in the capital and started "a very large fire" near one of the main Berlin railway

### Sir Archibald Sinclair

## 'Spell of Nazi Invincibility' Has Been Finally Broken

LONDON (CP)—A British torpedo plane hit the 10,000-ton pocket battleship Luetzow a few weeks ago, Sir Archibald Sinclair, the Air Secretary, told a national defence luncheon meeting today.

He announced no details of the engagement. The Luetzow used to be the pocket battleship Deutschland.

The King, responding to an expression of loyalty from the national defence committee, sent a message that "the two hard years that lie behind us have left us all unshaken in our determination to see justice and freedom re-established throughout the world."

### WARNING

Sir Archibald told the gathering the battle of the Atlantic "is not going too badly for us," but warned that it would probably require for some time "an immense concentration of attention and effort."

"Sinkings of British ships in July," he said, "were the lowest for any month for more than a year. . . . During the last 10 weeks the average weekly rate of merchant ships arriving from overseas exceeded 850,000 tons."

He declared the "spell of German invincibility which paralyzed half the world a year ago, now has been finally broken."

He predicted a growing "and more fruitful" co-operation between the R.A.F. and the army.

He reported coastal command planes had attacked 36 U-boats in the past year and "shot down more than 30 German aircraft" in protecting convoys.

"The coastal command," he said, "is transforming the Battle of the Atlantic from a German attack on British shipping into a British attack on German shipping and victory in this battle will be the turning point toward victory in the war."

Sir Archibald said German bomber crews will "pay dearly for the destruction of British homes next winter, and the Ger-

stations, the Air Ministry news service said tonight.

The service said the attacking planes bombed the capital with "some of the heaviest bombs."

The raid was one of the heaviest yet made by the R.A.F. on the German capital.

"Until we were within a few miles of Berlin we thought we were going to be disappointed, so thick were the clouds, but then we flew into sudden clearing," one pilot was quoted by the news service.

"We dropped our bombs, saw them burst among industrial buildings, and left fires burning."

Earlier the Air Ministry had stated Berlin and Frankfurt were the main objectives of an attack which also was carried to other western German cities and also to ports of German-held Belgium and France.

### FIRE RAGE

The captain of a four-motored bomber which was disabled during the attack on Berlin but which reached its home base safely said:

"We ran right across the city from the southwest to the northwest and dropped our bombs. A fire sprang up almost immediately and a very good fire, too, in the centre of the city. Our rear gunner could see it for 15 minutes afterwards. Somebody else must have bombed our fire because we saw more explosions in it."

"Then after a time we saw a ball of a great explosion and another fire started."

Sir Archibald Sinclair, the Air Minister, said at a luncheon the British bombers "hit the city of Berlin hard."

At Frankfurt a severe attack was made on railway communication lines and industrial targets. Large bombs fell on industrial buildings in Berlin and great fires were observed as the British bombers set a course for home.

Nine R.A.F. planes were lost in the night operations.

The first wave of British night raiders dropped eastward shortly after midnight and violent anti-aircraft flashes lighting the sky over Boulogne and Calais indicated that the French coast—hammered all day Tuesday—was taking another pounding.

### RAIDS ON BRITAIN LIGHT

Over the British Isles during the night, enemy activity was slight. A small number of German planes dropped bombs at one or two places in East Anglia and in northeast England and some damage was caused. No casualties were reported.

Anti-aircraft fire was heard in London shortly after dawn today but there was no alarm and it was presumed the guns were firing at German reconnaissance planes.

The German radio in a broadcast last evening declared British raids on Germany had killed 3,853 persons and injured 9,445 from the start of the war to August 29. Up to March 1 the British had acknowledged civilian casualties of 28,859 killed and 40,166 wounded as a result of German air raids.

For they could not outrun, they actually are the equivalent of exceptionally powerful armored cruisers. They are rated officially as "panzerschiffe"—armored ships.

### Anniversary in France

VICHY (AP)—The second anniversary of France's entry into the war was ignored today by newspapers in the unoccupied zone, but the press in the occupied area seized the opportunity to preach a sermon to their readers.

## Churchill May Probe Anti-Russian Charge

LONDON (CP)—Political correspondents predicted today Prime Minister Churchill would ask his Minister for Aircraft Production, Col. J. T. C. Moore-Brabazon, to see him regarding the charge he had expressed the hope that Germany and Russia would exterminate each other.

Jack Tanner, president of the Amalgamated Engineering Union, made the charge before the Trades Union Congress at Edinburgh yesterday.

Tanner also may be asked to give a more detailed account of the material on which he based his statement. This material would be made available to the Prime Minister.

William Gallacher, the only Communist member of the House of Commons, gave notice today that he would ask the Prime Minister at the next sitting of the House what he intends to do about the Tanner accusation.

### EXPRESS REGRET

EDINBURGH (CP)—Jack Tanner, president of the Amalgamated Engineering Union, said today he had seen a letter from Col. J. T. C. Moore-Brabazon, Minister for Aircraft Production, expressing regret for a statement which Tanner has interpreted as hoping for the extermination of both Russia and Germany. Tanner charged before the

### REACH SINGAPORE

SINGAPORE (CP)—Britain's imperial army in Malaya received new, strong reinforcements today with arrival of Indian army units, fully motorized and bringing all their fighting equipment with them.

The contingent included seasoned Indian infantrymen, veterans of recent campaigns on India's northwest frontier, Indian signalmen and a British artillery contingent equipped with tractor-drawn guns.

Air Chief Marshal Sir Robert Brooke-Popham, commander-in-chief of Far Eastern forces, met the transports.

When a large contingent of Australians arrived August 15 in a convoy officially described as the largest ever to reach Malaya since the war began, a spokesman said Sir Robert already had an army powerful enough to make any potential invader think 10 times before striking at this Far Eastern bulwark of Empire.

## U.S. Group to Russia

WASHINGTON (AP)—President Roosevelt today appointed a five-man mission headed by W. Averell Harriman, lend-lease expediter in London, to go to Moscow to discuss material aid to Russia in her fight with Nazi Germany.

The other members are: Maj. Gen. James H. Burns, executive officer of the lend-lease administration; Maj. Gen. George H. Grett, chief of the army corps, recently ordered on a special mission to Britain and the Middle East in connection with deliveries of U.S. aircraft; Admiral William H. Standley, retired, former chief of naval operations, and William L. Batt, deputy director of the office of production management's production division.

In addition, the White House announced that about nine technicians would accompany the mission. No announcement was made as to when it would leave.

## Paish Calls for Aid to Russia

All-out aid for Soviet Russia is advocated by Sir George Paish, noted British economist, who will speak this evening at the Empress Hotel under the auspices of the British-Russian Aid Committee.

Sir George praises the morale of the Russian army and people and their ability to fight against the "devilish and treacherous" attack by Nazi Germany.

"I am convinced," he said, "that out of her sufferings Russia will arise a great nation and that she will deserve and enjoy the friendship and regard of the entire world which she is now helping to preserve from slavery and unparalleled distress and disaster."

### STALIN GREAT MAN

Sir George believes Stalin to be one of the greatest men of all time. "Certainly," he said, "he has brought the Russian people out of great distress."

"The idea that things are the same under Stalin as they were under the Czar is totally ridiculous. Their freedom today is enormous when compared with their condition prior to 1917."

Sir George says that Germany finally turned on Russia because Russia was becoming a great and prosperous nation and that did not serve German ends. The Russian revolution, he pointed out, was the liberal revolution

Don't let hay fever get a start this summer! Beat the misery of sneezing, sore and inflamed weeping eyes, and running nose before they begin by taking Templeton's RAZ-MAH capsules. These capsules checkmate Hay Fever in advance—and they give great relief, quickly, if your attack has started.

headed by Kerensky. The "blood and thunder" revolution which followed was in reality a German revolution, since it was financed, he asserted, by German money.

The German government placed Lenin and Trotsky in power in Russia and made the Communist revolution.

From 1917 to 1933, Sir George asserts, Russia was completely under the control of Germany, and the Russian Communist government did whatever it was required to do by the German government.

When Hitler assumed power in 1933, however, the United States of Soviet Russia began to fear attack and since that time had looked to its defences.

The Russian air force was now understood to be on terms of equality with that of Germany, while the Russian navy is now superior to the German navy in both the Baltic and Black Seas.

Sir George says that final victory might still be won on the Russian front if the tools were supplied so that the Russians could carry on the war into the winter.

A Nazi victory in the present struggle, he claimed, would mean complete breakdown of international trade and subsequent starvation of half the world's population.

## Fraser Flays Lindbergh

OTTAWA (CP) — Prime Minister Peter Fraser of New Zealand, in a Canadian Club luncheon address, struck out at "those who deliberately set out to foment trouble between Britain and the United States." He mentioned Charles Lindbergh.

"When we see publicists deliberately trying to sever our two democratic commonwealths it is marvellously poor business and harmful to the cause of freedom and democracy at the present time," he said.

"I regret that a man who was universally respected and whose feats in the air have been admired by every member of the commonwealth should have obtained such perverted viewpoint as to stress the possibility of differences or antagonism between Great Britain and the United States at the present time," he said.

He spoke particularly of a speech made recently by Lindbergh in Oklahoma, and said he did so with some diffidence because he was one of those who believed in the freedom of speech and of opinion.

"But I suggest it is a poor business for Lindbergh or anybody else, by raising suspicions which are absolutely without foundation, to try to create antagonism between the two nations at a time when they were never bound more closely together in a determination to maintain freedom and democracy."

## VICTORIA STUDENTS EARN B.A. DEGREES

VANCOUVER (CP) — Thirty-seven students completed requirements for the bachelor of arts degree at the 1941 summer session of the University of British Columbia, the university senate has announced.

In addition, Chester G. Hayward, Kamloops, will receive a bachelor of commerce degree.

Among those completing the course for the bachelor degrees were:

Class 11—William W. Dumen, Mt. Lehman; William S. Duncan, Natal; Stanley Evans and Franklin Foster, Nanaimo; A. Rankin Hanna, Nelson; William Cameron Hooper, Princeton; D. Wilcox More, Hazelton; Elinor G. Richards, Vernon; Cyril Vaughan G. Pritchard, Eric A. Townsend, B. Com., Rhoda Walton, Barbara P. Winslow, all of Victoria.

Passed — A. V. Carley and Charles E. Holland, Victoria; Alfred N. Humphreys, Vernon.

**Want Conscription**

EDMONTON (CP) — The Edmonton branch of the Canadian Corps Association, at a meeting here last night, endorsed a resolution demanding immediate conscription of "wealth, manpower and resources."

Copies of the resolution will be sent to Prime Minister Mackenzie King and Hon. J. L. Ralston, Minister of National Defence.

ON THE TERRACE AT CLIVEDEN are two noted figures in the life of Britain—George Bernard Shaw and Lady Nancy Astor, American-born member of the British Parliament. Mr. Shaw was spending a two-weeks' holiday at the Astor estate when the picture was taken a short time ago.

**Wilson Succeeds Purvis**

## Royal Bank Head Named Supply Chief

LONDON (CP)—An announcement from No. 10 Downing Street said that Morris Wilson, deputy chairman of the British Supply Council in North America, has been appointed chairman to succeed the late Rt. Hon. Arthur Purvis, and as such becomes Great Britain's chief purchasing agent in the United States.

Appointment of E. P. Taylor to the newly-created post of chief executive officer of the council also was announced.

The appointment of two Canadians, Mr. Wilson, a Montrealeer, who is president of the Royal Bank of Canada, and Mr. Taylor, who is a prominent Toronto industrialist, to head the supply council, is considered here as an indication of the high regard the British government has for the efficiency of Canadian businessmen.

**SEES CHURCHILL**

Mr. Taylor, who arrived in Britain during the week-end from Washington, conferred with Prime Minister Churchill and certain of his associates, discussing the work of the supply council whose function it is to arrange for supplies from the United States for Britain under the Lend-Lease Act.

Mr. Wilson assumes the post left vacant by the death, in a plane crash in Britain two weeks ago, of Mr. Purvis. Mr. Wilson had been working with Mr. Purvis in Washington ever since the council and the purchasing commission that preceded it were set up.

Since May Mr. Taylor had been in Washington seeking ways by which Canada could sell defence materials to the United States and thereby obtain American currency with which to help pay for the heavy purchases of war materials which Canada is making in that country.

**MADE AGREEMENT WORK**

His job was to make the Hyde Park agreement between President Roosevelt and Prime Minister Mackenzie King work successfully. Canada organized the War Supplies Limited, a government-owned company, for this purpose, with Mr. Taylor as its president.

It is expected that the Canadian government soon will name a successor to Mr. Taylor on War Supplies Limited.

**MANY CONNECTIONS**

(Mr. Wilson has been president of the Royal Bank of Canada since he succeeded Sir Herbert Holt in 1934. He had become vice-president of the bank in 1931.) (Mr. Wilson has many other

financial positions. He is a director of the Executive of Montreal Trust Company, a director of Beauharnois Light, Heat and Power Company, the Montreal Light, Heat and Power Company, the Canadian Pacific Railway, Canadian Airways, and the Sun Life Assurance Company.)

(A native of Lunenburg, N.S., Mr. Wilson was educated there and entered the employ of the Royal Bank when he was 14. He was raised to branch manager at Vancouver in 1911 at the age of 28. He rose steadily until he became general manager in 1929.

## Asks Details Of Mine Bills

WASHINGTON (AP)—Senator Charles Tobey (Rep.-New Hampshire) has made public a letter to President Roosevelt asking for details, if any, on "charges for whiskies, wines and entertainment under the Lease-Lend program."

The senator said a Washington newspaper reported the "British mission has charged over \$30,000 worth of meals and rare wines in one Washington restaurant alone to the Lease-Lend Bill (meaning to the American taxpayers) and that the commission has contracted other bills to be charged to the Lease-Lend Bill and to the anticipated new Lease-Lend appropriation which you are to ask for."

(President Roosevelt was asked about the restaurant bill story last week at his Tuesday press conference and he replied by saying that it certainly was never charged to Lease-Lend. He remarked that this instance probably was a very good example of what he said was a campaign organized to spread rumors, distortions, half truths and falsehoods in an effort to sabotage the program of aid to opponents of Hitlerism).

**BURIED AT SOMENOS**

He is survived by his widow and a niece, Mrs. Thomas Shortridge of Port Angeles.

## Alberta Prophet Insists Hitler to Die in Week

EDMONTON (CP) — The Edmonton prophet who predicted the war would end last week-end said in an interview last night he was right, and that Hitler's "evil power" fell away from him "like a cloak" at midnight Sunday and that from now on the Germans won't gain "an inch of ground" before they collapse and are defeated.

Harry Snider, 60, the amateur seer credited by his friends with having forecast the flight of Rudolf Hess and other outstanding events, also declared he stands by his prediction Hitler and three other unnamed dictators will die of violence within the next week.

Last November 11, Mr. Snider, a Russian-born Jew now living on relief with his wife and five children, announced he had seen prophetic visions the war would end August 31. Tuesday he admitted fighting still was going on but said the tide of battle definitely has turned against the Nazis and their defeat and destruction are certain.

Mr. Snider confided he had had another and clearer vision at the week-end, showing him that Hitler's authority had fallen away and that the German ruler now is without the sinister power he has exercised over his colleagues and the mass of the German people.

## 'Poland Will Live Again,' Brave Exiles Fight Nazis

(While in Warsaw as an Associated Press foreign correspondent Lloyd Lehrs saw the Second Great War begin two years ago. He wrote dramatic accounts of the bombing of Warsaw and the Nazi blitzkrieg that destroyed Poland in a month. From authoritative sources he has developed a picture of what has happened to Poland in captivity.)

By LLOYD LEHRBAS  
WASHINGTON (AP)—"Poland will live again!"

Poles still are singing that line of their national anthem, and those who escaped the Nazi blitzkrieg of their native land two years ago still are fighting for the rebirth of the Polish republic.

The stronghearted phrase, says Jan Ciechanowski, the Polish ambassador to the United States, is singing also in the hearts of Poles living under the conqueror's rule in their homeland.

**STRONG IN EXILE**

The republic of Poland today consists of a Polish government-in-exile in London, Polish troops in action in Europe and the Middle East, Polish pilots in the skies over Europe and Polish volunteers being organized and in training in Soviet Russia and Canada.

Poland's hope for the future lies in the Poles' fight—inside and outside Poland—and the pledges by Great Britain and Soviet Russia, after two dark years, that the republic of Poland will live again when Nazi tyranny has been vanquished.

The Poles have established in London a government under the presidency of Wladyslaw Raczkiewicz, the former president of the Polish senate, and Prime Minister Gen. Wladyslaw Sikorski, a soldier who fought valiantly to the end.

This Polish government's white papers, based on information smuggled out of the country by Polish agents, charge that the

Nazis have made of Poland a land of hunger, stark fear, wrecked churches and schools, executions and cruel and methodical deportations.

**WHITE PAPER**

The latest white paper (issued August 19) charged that at least 70,000 civilians have been executed, some in massacres that wiped out entire villages and towns.

Among those who have been assassinated, the white paper reported, was Stefan Starzynski, the heroic mayor of Warsaw.

In Britain, a Polish army of 50,000 well-trained men is prepared to help fight off any German invasion. Polish units fought with British forces in Greece, Syria and Libya. An air force of 10,000, including 2,000 pilots, is active in the skies over Europe.

Poland's fight has been financed by earnings of her merchant ships and what gold was saved, with liberal assistance from the British government.

"Poland is fighting," declares Ambassador Ciechanowski, "and will continue to fight in the fullest sense of the word."

**CHECK TAG DAYS**

NANAIMO — Alderman J. G. Hindmarch found unanimous support at the city council meeting Monday night, when he pointed out that organizations granted tag days should not neglect to turn in an official statement showing gross takings, expenditures and the net amount the charity for which it was held received.

Alderman George Addison told the council that town talk had exaggerated the rise in coal prices here.

The city council passed a resolution, to be forwarded to the provincial government and the Minister of Labor, asking consideration

## Japan's Dilemma

WITH THE ARRIVAL AT SINGAPORE today of new and strong reinforcements of Indian army units—fully motorized and bringing all their fighting equipment with them—Britain's imperial army in the Malay Peninsula evidently is assuming such numerical proportions and material strength that Commander-in-Chief Sir Robert Brooke-Popham is far from worried by Japanese threats of such action as the military hot-heads of Tokyo may take in their effort to establish their long-advertised "co-prosperity sphere" in East Asia. And it will be remembered that when a contingent of Australians arrived at the great Pacific citadel less than a month ago the convoy was officially described as "the largest ever to reach Malaya since the war began," intimating at the same time that Sir Robert had an army under his command "powerful enough to make any potential invader think 10 times before striking at this Far Eastern bulwark of Empire."

Today's advice of further strengthening of the Malayan defensive force, therefore, interjects a new commentary on the strangely-contradictory reactions in Japanese official circles, not only as they concern Allied preparations to meet a further southern advance from sea or land, but also in the light of the help which the United States is sending to the Soviet Union by way of Japanese waters to Vladivostok. Hence, whether the influence of the moderates among the Mikado's advisers is substantial enough to curb the designs of the war lords—now obviously under intense importunity from the senior Axis partner in Berlin—or whether regard for "face" will be allowed to supersede the exercise of judgment which existing circumstances would appear to warrant, is still highly problematical. Whatever course is taken by the men of Tokyo, however, such dependence as they may have placed on the prospect of further appeasement has been effectively disposed of by Prime Minister Churchill and President Roosevelt.

In other words, it is for Japan to decide the issue for herself; whether to try to get by force what the democracies do not intend to allow her to obtain by any other means; or whether she is prepared to acknowledge certain basic facts in their true light and become a party to a commonsense discussion that might conceivably show her the way to avoid national disaster. Important among these facts, of course, is the continuous ever-growing support for China from Britain and the United States—a condition that will not change unless the invader withdraws his sadly-disillusioned armies from the lands they have despoiled without cause. In the final analysis, then, Emperor Hirohito and his government must choose between a war with the British Empire, the United States, the Netherlands East Indies, Soviet Russia—plus unconquered China—and withdrawal from active participation in Axis plans while there is yet time to salvage some of the "face" already lost.

## Churchill and Critic

IF THERE IS ONE BRITISH PARLIAMENTARIAN who welcomes criticism—because it reflects a robust public opinion and serves as a whetstone for sharpening the repartee in which he revels—that man is none other than Mr. Churchill. But the verbatim report of the full-dress debate on production a week or so ago furnished an example of the manner in which the Prime Minister deals with the captious type—the type, incidentally, in which an infinitesimal element in this country never tires of indulging. He was answering specifically Sir John Wardlaw-Milne, Conservative member for the Kidderminster division of Worcestershire, who had charged that Britain was not working to more than 75 per cent of her capacity and possibilities. Here is part of Mr. Churchill's rejoinder:

"In America such a statement is meat and drink to the isolationist forces. . . . A handful of members can fill a couple of days' debate with disparaging charges against our war effort, the over-ardent or disaffected section of the press can take it up, and the whole can cry a dismal cacophonous chorus of stinking fish around the world."

From this point the Prime Minister turned his attention to repeated attacks on the Minister of Labor, Mr. Bevin. "He was a workman, and a trade union leader; he was taunted with being an unskilled laborer representing an unskilled union; he gave offence in some quarters." But:

"He has his own methods of speech and action . . . he makes mistakes as I do, though not so many (laughter). But at any rate he is producing at this moment a vast and steady volume of effort, the like of which has not been seen before."

In general, Mr. Churchill implied that when the man who could perform production miracles had been delivered, any man who could do better than those working with him in vital branches of the war effort, "let me know his name; I shall be very glad to serve under him, provided I am satisfied he possesses the Napoleonic qualities attributed to him."

## An Able Jurist Passes

HON. ARCHER MARTIN'S DEATH ROBS Victoria of one of its most picturesque personalities and serves again to emphasize the loss which the Canadian judiciary sustained by his retirement from the office of Chief Justice of the Appeal Court of British Columbia in May of last year. His youthful figure, his athletic proclivities—he was a magnificent swimmer and an ardent devotee of tennis—and his keen analytical mind belied his 76 years; his sudden passing came as a profound shock not only to his immediate family, his host of friends throughout the Dominion, but also to several generations of legal practitioners in every part of Canada who treasure vivid and profitable recollections of his sage philosophy and all-embracing professional wisdom.

For more than 40 years Mr. Justice Martin adorned the bench of British Columbia, bringing to the discharge of his official duties an exhaustive knowledge and understanding of the law and its manifold relationships to human society, combining as they did a vast experience which left an indelible imprint on the legal annals of this province in particular and of the Dominion in general. Through the years, in normal times and in days when men's minds were beset with much perplexity, he weighed the scales of justice with a meticulous exactitude; and his resulting judgments were of such a character as to establish them as lasting monuments to his valuable contribution to Canadian jurisprudence.

## Tables Completely Turned

IF ONLY THE ROYAL AIR FORCE could bomb Berlin every night, every other night, or even once a week—provided the attack could be made heavy enough to do really visible damage for the edification of the people—German morale would soon deteriorate. The foregoing has no specific application to the current trend of the war in the air or to the conflict in its wider ramifications. It is a reflection of the mood which held Mr. William L. Shirer, author of "Berlin Diary," in its grip this time last year as he so ably filled the role of radio broadcaster for the CBS in the Nazi capital. Those who have read this distinguished author's intimate reflections will be able to assess the value to the Allied cause of the day and night offensive which the Royal Air Force began three months ago.

Even the official German communiqué admits that last night's attack on Berlin was "severe." What amount of actual damage was done in this and in recent raids by the R.A.F. and the Russian air force we may not learn for a long time. What is obvious, without verified eye-witness accounts, is that the constant pounding of vital areas of production must have caused serious damage to the Reich's war machine at its base. And the naive suggestion from London recently that our bombers may soon, on a larger scale, disturb the even tenor of German civilian existence was a welcome intimation of the beginning of a type of action from the skies not calculated to enhance the equanimity of workers and citizens already severely harassed and disturbed in mind.

On the defensive side of the ledger, moreover, Britain has had several months of freedom from anything like heavy bombardments. It will be a year on September 7, incidentally, since London's East End and the whole dockside suffered the first concentrated aerial Blitzkrieg. Month after month important coast and provincial areas had to take almost everything Goering's Luftwaffe had. They stuck it out, improved their protection, cleared up the mess, and figuratively put the thumb of scorn to the nose of derision. And last week's war production was hailed by the Ministry of Supply as an all-time record. Thus, in the peaceful atmosphere of broadcasting studios from which he now is heard, as he contemplates an entirely different world-war picture, Mr. Shirer may feel inclined to hark back to those agonizing days of 1940 in Berlin.

## Notes

Lots of home gardeners by now have lost faith in the old "As ye sow, so shall ye reap."

In justice to this year's crop of cantaloupes, we must say that only the first 50 were the hardest.

People sing the songs of yesterday and political leaders discuss the world of tomorrow. Anything to forget today and the evil thereof.

They say the income tax form next year is to have a space in which the taxpayer informs the family where to send him a suit of clothes.

Al Smith, who stepped out of the Roosevelt party five years ago, is back and renewing old ties. It leaves only ex-Vice-President Garner taking a slow trip around the block.

## CANADA BEGINS TO PAY

From Ottawa Journal  
To date it is true that casualties have not been heavy: In the Army 357 dead or missing, in the Navy 372 and in the R.C.A.F. 557. But they are mounting, particularly in the R.C.A.F., which is of course seeing the most action in these days of waiting. Said Air Minister Power the other day:

"Unfortunately, the ever-growing list of Air Force casualties is the strongest evidence of the part being played by our men in these operations. I say with regret that I can promise no relief from that grim circumstance."

This is honest and to the point. We have been told much of the great British Commonwealth Air Training Plan, of the proud place it has given us in the Empire's air war. But we cannot have the glory without the sacrifice, and if Canada is to supply one-third or may be even one-half of the Empire's airmen, as Major Power intimated some weeks ago, the sacrifice will not be small.

### BEAUTIFUL LEGEND

READING THIS NEWSPAPER the other night, I was startled to see in it a piece of information about this city which I had never suspected. It was announced that a new Institution with a useful purpose had just been opened behind the City Hall in Fiddler's Green.

Fiddler's Green! I had never heard of it. In my time there was a littered backyard at the rear of the City Hall, nameless and blank. Now it has become Fiddler's Green, with an Institution on it. What a glorious and legendary name for such an Institution—Fiddler's Green! Why, the very words conjure up beautiful visions of olden times such as they have in England but are seldom seen here.

In London is Golder's Green (if I remember the spelling) and it has ghosts galore. There is Berkeley Square with spirits walking about in knee breeches and taking snuff. There is Piccadilly which was named after the piccadil, a kind of neckpiece much favored by the gallants of another age, who still haunt the ancient thoroughfare. Now we, in this Little Bit of England, have our legendary haunt also. We have Fiddler's Green.

### THE GHOST

How it came by its name I cannot imagine. Perhaps the City Council named it with no special reason. But I prefer to think that there is a Fiddler there somewhere, perhaps a ghostly Fiddler who fiddles in the darkness of the night, beneath the windows of the City Council when it is in session. (In my time there was never anything more exciting there than the recumbent form of a drunk or two, some old rusty stoves and other rubbish.)

It is a beautiful legend and we should be glad that at last Victoria has found a civic ghost like those of older lands. But what a curious Institution to plant in the middle of such a romantic spot! To be fair, the City Council for once has proved expert and artistic in architecture. The Institution is admirably designed and follows what architects call a functional line, suited to its purpose. How much better the council succeeded here than farther up Pandora Avenue! There its architecture had no function, no beauty, no legend and no ghost (though I feel that, in due time, mine will wander about that Thing, haunting it with evil sounds and hideous moanings into eternity.)

So far as one can discover the other Thing on Pandora Avenue is a kind of light-house or beacon. But it lights you to nowhere. It lures the tired traveler but he finds nothing there at the end of his journey save an empty mass of stucco, whose red lights leer at him. Whereas there is no beacon and no light to attract anyone to the new Institution on Fiddler's Green.

Thus the solution of our most pressing civic problem has now become obvious. We should move the lighthouse from its present useless spot and plant it on Fiddler's Green, where the traveler can see it from afar and know that his weary journey is at an end. Plant it squarely in the middle of Fiddler's Green and we need no longer be ashamed of it, for now it will have a purpose and a function and will almost look as if it were designed with a purpose by rational men.

Nay, let the Fiddler's Ghost reside in it, playing his fiddle there perpetually, attracting custom with sweet music. That is if the Fiddler has not fled already. After all, when you have inhabited a virgin green for many years it must be rather annoying to have such an Institution planted down in your midst. Many fiddlers would fiddle no longer in such premises.

### CHANGE

All these changes are part of the changing Victoria. This place has become unrecognizable and may soon become intolerable, unless it is rebuilt. It was resigned as a little city. Its streets are narrow. The other morning it was more congested than any city I have ever seen. Once I drove a car around Trafalgar Square at the rush hour and around the Place de La Concorde (because I couldn't find any way out of it) but I never saw traffic like that of Government Street last Saturday. This town simply wasn't built to hold it. I never saw such congestion or worse noise and if I hadn't arrived after a while at the Thing on Pandora Avenue I should have thought I was in another place, probably Vancouver. But having seen the Thing I knew where I was. No other city would permit such an erection. It was Victoria all right. Alas, no longer a Little Bit of England, but a Genuine Corner of the Bronx.

### AGE AND USEFULNESS

From Christian Science Monitor

The United States Social Security Board, according to reports, is finding that while collections for old-age insurance in the United States are mounting more rapidly than expected, the out-payments for benefits are smaller than the estimates. As a result, the reserve fund has grown already to \$2,397,000,000.

One reason for this situation is that with the defense boom in industries at least 25,000 persons who had retired at 65 years of age and were receiving benefits have dropped the benefits and gone back to work. In addition, a large number on reaching the age at which they could retire have continued at work.

This signifies a great deal both as to the skill of these senior citizens and as to their preference when a choice exists between pensioned inactivity and productive usefulness.

### PACIFIC PEACE?

The most hopeful sign on the world horizon is the possibility of early Pacific peace. The obstacles to the attainment of such peace are self-evident. But the forces making for it are gaining strength every day.

There is no one, even in Japan, who is not anxious to liquidate what the Japanese call the "China Incident." That longest standing phase of World War II has been in progress for more than four years. Barring a complete and speedy victory by the Axis over Britain and Russia, and a consequent stoppage of all outside supplies to China, there is no longer a vestige of hope of outright Japanese victory in China.

Chiang Kai-shek, who is an extremely cautious statesman, has recently stated that victory for China is certain within another year. The Japanese will, of course, never agree to that description of what is likely to happen. When peace comes the Japanese will find a way of presenting it without loss of face.

But the odds for early peace in the Pacific really are good. And the chief reason why they are good is that Japanese realists know that if they do not take peace while the taking is still good they will only take peace a little later on—but a peace dictated to them after devastating punishment of Japan itself.

### NOW OR NEVER

In the truest sense of the word it is now or never for Japan. She has reached the absolute limit of her possible southerly expansion. She cannot go another mile, even into Thailand, without risking immediate all-out war with the combined far eastern forces of the United States, Britain, the Netherlands and the Soviet.

If she hangs on in China until the war in Europe is over she will face an unbeaten enemy who will then receive airplane reinforcements, not by tens or hundreds, but by thousands.

Worst of all—from the standpoint of the Japanese expansionists—failure by Japan to take peace now—while she can get it on terms far to all—will probably mean a drastically restricted and not expanded Japanese empire. If Japan continues to play her nuisance-value blackmail game in the Far East until the Hitler menace is liquidated she is likely to take a subsequent beating that will not only end her history as a great power, but leave her as a solitary island kingdom, stripped not only of her recent seizures such as Manchuria and Indo-China, but of all the other earlier grabs, such as that of Korea.

### 30 DAYS GRACE

Japan probably has about 30 days in which to make up her mind. If Germany should unexpectedly succeed in that time in destroying the Soviet armies Japan might feel called upon to grab some of the orphaned pieces of Soviet Siberia. But the Japanese are not fools in military matters, and know what the chances are for such a total Nazi victory before snow flies.

If Japan made peace now she would, of course, have to withdraw completely from China. She probably could keep French Indo-China, seeing that such was handed over to her by the French government, and seeing that we were warned that any attempt to prevent such a transfer would be resisted by force of arms.

My own private guess is that Japan could get her occupation of Manchuria recognized by all powers, including China. If she were to agree to peace immediately—but not otherwise. The Soviet, incidentally, has already granted this recognition in her own nonaggression pact with Japan. Repudiation by Japan of that pact would automatically void this recognition.

Japan could also get Allied war orders and shipping contracts which would set her towards off setting her disastrous losses in China. Her economic help could be of tremendous help to us in defeating Hitler.

Japan can take it or leave it. She can get an honorable and profitable peace now. Or she can invite a total defeat a little later.

### EVERYTHING BUT BOOTLEGGERS

From Midland Free Press Herald  
Liquor advertising is forbidden in Ontario newspapers and magazines. Yet the Ontario government which made the law has recently been guilty of the most flagrant violation of it. In a new and attractive folder issued by the Ontario Tourist Bureau there is a two-page spread listing all municipalities where there are beer parlors, government liquor stores and liquor warehouses. All that has been omitted in this directory for the thirsty is a list of bootlegging joints. The liquor board is surely slipping.

After all, it is the human spirit . . . rather than brains or brawn alone, that will determine whether this revolutionary crisis of history is to be a dark age of destruction or a new era of reconstruction.—Dr. J. S. Bixler, president Colby College.

### THE DIFFERENCE

From London Listener

In an address broadcast from St. Martin-in-the-Fields, the Rev. Eric Loveday suggested that many of our habits in religious thinking and worship are summed up in the words of an old Scotsman who said: "When I was a young man we gathered on the hillsides in all weathers, and standing there bareheaded sang 'Praise God From Whom All Blessings Flow.' Now I am a member of the most popular church in my city, where the pews are so comfortable that you could sleep in them, and we sing, 'Art thou weary, art thou languid, art thou sore distressed?'"

## Our Millinery Opening

Commencing Thursday, Will Reveal the Newest Hats and Coming Popularities for the Season

Among our collection you will find millinery types with a past and a future, but expressing something that makes you carry your head high . . . facing fall with a sparkle more than merely pretty.

One of the major style trends in fall hats is, they are brim full of big brims. A daytime hat for which popularity is predicted is the so-called "Cavalier" model . . . coming up high on one side and down on the other.

The majority of suit and coat hats will be strictly utilitarian . . . Coverall and portrait berets, taken from your romantic idea of what the 19th century artist wore with his smock . . . felt or velour.

NOW, autumn's fire burns slowly across the wood; and in its wake leaves a veritable symphony of colorings such as are only seen in the art gallery of nature."

This season Dame Fashion has stepped aside from the ordinary, man-created colors and sought the aid of nature's many glorious tints . . . many shades of brown, the beauty of which is emphasized with almost indefinable traces of scarlet, green, purple, mauve, and other nature combinations, but in all the prevailing brown stands out in all its quiet dominating power.

These nature shades may be seen in much of the new fall apparel at SPENCER'S.

## Britons Grateful To Red Cross

"The Canadian Red Cross means much to the people of Britain," said Lieut.-Col. C. A. Scott, acting Overseas Commissioner, who recently returned to Toronto for a flying visit, after spending 17 months in Britain as a director of Red Cross services.

"Not only to these people of bombed Britain, but to the countless thousands of people from other lands all over Europe who have found sanctuary there, and even to those men who have escaped from occupied lands to form new battalions of their fellows in Britain. Red Cross has helped people from Belgium, Norway, Holland, the Free French, and a great many Czechoslovakians. To the Czech and Polish units in Britain Red Cross has issued three pairs of socks to each man," Col. Scott continued.

"We have supplied some 14,000 children from the Channel Islands with clothing, and 6,000 articles of clothing to refugees from Gibraltar, altogether 3,000,000 garments have been distributed to British and other civilians throughout Britain, and every single garment bore a tag stating that it was a gift of the Canadian

people through the Red Cross Society.

"We know the needs of the Canadian boys, too," said the colonel. "For instance, if a Canadian lad wants a stick of gum to chew, or a sports page from his home town newspaper, or someone to help him write a letter home, it is the job of Red Cross to see he gets what he wants. All over England we have our own volunteer hospital visitors who, at our request, call upon Canadian lads in hospital."

### LOSSES FEW

In reply to a question concerning losses due to transportation difficulties, Col. Scott said that some had been sustained at sea, but have been fewer than was thought possible. The largest single loss was at Liverpool during a recent blitz, when goods to the value of \$220,000 were destroyed on docks and in warehouses. That was a serious loss at the time as a majority of the goods were medical supplies.

"We have also supplied 36 mobile kitchens to the fire fighters of England at a total cost of \$115,000, each kitchen capable of preparing a meal for 250 men. Three of these have been placed in each region throughout Britain. Red Cross has rebuilt the club that was destroyed, a club for Canadian soldiers on leave in London.

"All these things," the colonel concluded, "were made possible through the generosity of the Canadian people, and you can take my word for it that the British people, and the people of the suppressed nations thank them with their whole hearts."

## Metochosin Hostess Club Is Formed

At a meeting held recently at the Vicarage, Metochosin, a junior branch of the Victoria Women's Hospitality Auxiliary was formed. Miss Beth Ellwood was elected chairman and Miss Ruth Beckingham secretary.

The first entertainment of the season was put on by the club for the Irish Fusiliers of the Colwood Camp and took the form of supper and beach fire at Weir's beach. The Misses Sonia Everest and Agnes Bierman were in charge of the refreshments. A quiz contest, singing and games were enjoyed, the highlight of the evening being Fusilier Frank Judd with his guitar and songs. Mr. and Mrs. Rothe chaperoned the party and assisted the hostesses.

The Fusiliers expressed their appreciation and it is hoped that in the future many such programs will be arranged. The same group has arranged for a dance at the Metochosin Hall on Friday, September 5. Many hostesses in the district have signified their willingness to entertain small parties.

Princess Alexandra Lodge, No. 18, Daughters of England, will meet on Thursday in the S.O.E. Hall at 7.30.

## Elizabeth Martin Marries Today; To Live in Ottawa

Two members of prominent pioneer B.C. families were united in marriage at 12.15 today at St. Mary's Church, Oak Bay, when Evelyn Elizabeth, only daughter of Mr. William Martin of Vancouver, and the late Mrs. Martin, and granddaughter of Mrs. John Galt, Rockland Avenue, and Mrs. William Martin, Vancouver, became the bride of Pay-Lieut. Commander John Barclay, R.C.N., Victoria, youngest son of the late Mr. and Mrs. George Barclay, of Vernon, B.C., Archdeacon A. F. de L. Nunns officiated.

Walking down the aisle on the arm of her father to the strains of the Wedding March from "Lo-hengrin," played by Organist F. T. C. Wickett, the bride met the groom, supported by Pay-Lieut. Bruce Smith, R.C.N.R., Victoria, at the chancel steps, on either side of which stood tall standards of yellow and white gladioli, baskets of asters, pompon dahlias and goldenrod in the same shades banking the choir stalls. On the altar were vases of miniature white gladioli.

### BRIDE IN BLUE

Her aqua blue afternoon frock of heavy French crepe was becomingly shirred at the shoulders, forming a V-shaped neckline, her three-quarter length sleeves being similarly shirred at the cuffs. The skirt flared softly from the waist, around which was a shirred belt of self-material. In delicate contrast was her large brimmed hat of light felt in dusky rose shade in conventionalized poke bonnet style, her short embroidered veil of fine net tying in the back into a loose bow. Completing her ensemble were French blue accessories and a shower bouquet of Columbia roses, and around her neck she wore a single strand of pearls belonging to her grandmother, Mrs. Galt.

Miss Ann Critchley of Victoria, the bride's cousin, was the only attendant, wearing a dove grey and white printed silk crepe ensemble, the two-piece frock having a chill red blouse in striking contrast, over which she wore a hip-length long-sleeved jacket, fastened up the front with buttons of self-material to a V-neckline with lapels. With her ensemble she wore a smart grey felt cartwheel hat, trimmed with grosgrain in the same shade, grey accessories and carried a loose bouquet of rust-red and peach pompon dahlias.

Ushering the guests to their seats and forming a guard of honor for the couple as they left the church were Lieut.-Com. C. H. Hudson, R.C.N.R.; Lieut. Philip Booth, R.C.N.V.R.; Lieut. William Landymore, R.C.N.; Pay-Sub-Lieut. Peter H. Sinclair, R.C.N.R.; Pay-Sub-Lieut. F. Dudley Elcott, R.C.N.

### MANY AT RECEPTION

Following the ceremony a reception was held at the home of the bride's grandmother, 1320 Rockland Avenue, Mrs. Galt receiving the guests in a smart Marina blue frock of heavy silk crepe with three-quarter sleeves, shirred at the shoulder, and a V-neckline around which were trapezoidal embroidered leaves in stylized design. Complementing the costume was her medium-brimmed soft felt hat of deep blue, velvet flowers and osprey in the same shade etching the crown, and navy blue accessories, and she carried a small bouquet of blue delphiniums.

Tall standards of yellow goldenrod and zinnias were placed in the hall and in the drawing-room the bride and groom stood before a cabinet banked with white gladioli and dahlias, a low arrangement of pink and mauve dahlias outlined by a long fringe of fuchsia in the same shades decorating the mantelpiece. All white was the dining-room, white tapers and a low bowl of gladioli and dahlias sharing the centre of the lace-covered bridal table with the two-tiered cake, which was topped by a vase of white heather and tiny white bells. Mr. H. Weldon, uncle of the bride, proposed the toast.

The bride and groom left on the Vancouver boat to travel by train to Ottawa where the groom will assume new naval duties. For her trip the bride donned a topcoat of beige wool with lynx collar over her wedding costume.

### SALT SPRING

GANGES—The Ganges Women's Institute have resumed their monthly meetings following the summer holidays. The meeting was held in the Log Cabin, the vice-president, Mrs. H. Johnson, in the chair. Reports were heard from the treasurer and Bundles for Britain convener. Mrs. B. G. Wolfe-Merton was elected as delegate to attend the annual conference of South Vancouver Island district Women's Institute, which will be held in Victoria, October 2 and 3.

## Social and Personal

Dr. and Mrs. W. Rose, Thorpe Place, will take up their residence tomorrow at 855 Quadra Street.

Miss M. Palmer, of Granite Street, has taken up her residence at The Guest House, Oak Bay.

Mrs. Herbert Clark, Linkleas Avenue, who has been spending the summer at Deep Cove, has returned to Victoria.

Mrs. E. Hudson has gone over to Vancouver to spend a month with her son-in-law and daughter, Mr. and Mrs. Richard Stacey.

Miss Joyce Maddock, who has spent a week at Brackendale and Vancouver, returned on Saturday to her home at Gordon Head.

Mr. and Mrs. Frank Jeffrey, Newport Avenue, who have been spending the month of August at Qualicum Beach, returned home yesterday.

Mrs. J. M. Ritchie, Mrs. Ernest F. Levesque and her three sons, after spending a week at Parksville, have returned to their home on Millstream Road, Langford.

Mrs. F. N. Cabellu, of Falkland Road, and her three children, who have been spending the last year in Truro, N.S., have returned to their home in Victoria.

Miss Marjorie Clare left Victoria Sunday afternoon for Halifax, where her marriage will take place September 6 to Leading Seaman J. Rafter, H.M.C.S. Restigouche.

Miss Joan Heighes, who has been spending several weeks at Langford visiting her grandparents, Mr. and Mrs. W. A. Walker, has returned to her home at Comox, V.I.

Mrs. Herbert Morris, wife of the general manager of African and Eastern (Near East Ltd.), a subsidiary of Lever Bros., who left Basrah, Iraq, on May 2, has arrived in Victoria to visit her father, Mr. C. C. Castle, and her brother, Major R. F. Castle.

Mr. and Mrs. Arthur Webb, Glanford Avenue, were pleasantly surprised when a number of their relatives and friends called recently to tender their felicitations on their 25th wedding anniversary and to present them with a silver tea service and tray. Music and games were enjoyed and refreshments served.

Mrs. M. Aubrey Kent returned to her home on Douglas Street Sunday from Pender Island, where she has been spending the last week as the guest of Col. and Mrs. Don B. Martyn at their summer home. Col. and Mrs. Martyn left yesterday for their home in Seattle after spending the summer on the island.

Mrs. William Aisdorf of "Fenella," Langford, entertained a few friends on Monday evening in honor of Miss Glenys Smedley, whose marriage to Lance-Bombardier George E. Bowes will take place on Saturday evening. Late summer flowers decorated the reception rooms and music and singing were enjoyed. The guests present, who all brought the gift of honor a souvenir for her future kitchen, were Mrs. Frank Smedley, Mrs. Charles Carnegie, Miss Elizabeth Welch, Miss Ethel Brown (Colwood) and the Misses Mabel and Patsy Brown.

## U.S. and Canadian Women Convene In Ottawa

By GLADYS ARNOLD  
OTTAWA (CP) — A vice-regal and Canadian government welcome was extended to American and Canadian delegates to the seven-day regional convention of the Associated Country Women of the World which opened last night with a reception given by the Federated Women's Institutes of Ontario.

The Princess Alice, in a message congratulating the president of the association, Mrs. Alfred Watt, on the importance and variety of the program, said: "This meeting has a profound significance. It demonstrates once more the . . . unity of heart and mind that exists between the two greatest democracies, the United States and the British Empire."

Justice Minister Lapointe, acting Prime Minister, said in a message on behalf of the government: "It is encouraging to know that representatives of leading women's organizations of United States and Canada are gathering together to discuss important social and economic problems so intimately connected with the welfare and preservation of the society in which we live." At the official convention opening today Mayor Stanley Lewis will welcome the American visitors and Canadian delegations. Princess Juliana of the Nether-

# WEDDINGS

## HILLIER-McLARNIN

Mr. William Ingram Hillier and his bride, Olive Mary McLarnin, whose marriage took place in Vancouver Saturday evening, will make their home in Victoria following a Harrison Hot Springs honeymoon.

The wedding was solemnized by Mr. W. W. Reid in Mount Pleasant Hall, where Mrs. Betty Jenion was organist and Miss Elsie MacDonald soloist. In attendance on the bride, who is the daughter of Mr. Samuel McLarnin and the late Mrs. McLarnin, were her niece, Miss Ruth Middlemass, as junior bridesmaid, and the groom's sister, Miss Madge Hillier.

Mr. Robert McKenzie was best man for the son of Mr. and Mrs. William T. Hillier, and the Messrs. Lewis Smith and George Stevenson were ushers.

The groom's gift of pearls was worn with a bridal gown of white cross-barred net, cut en train. An orange blossom coronet held the shirred veil and in her bouquet were roses, carnations and heather. Deeply laced-yoked were the full-skirted sheer bridesmaids' frocks, styled alike, Miss Hillier in turquoise and Miss Middlemass wearing primrose. To match their gowns were shoulder veils falling from floral arrangements and pastel gladioli were the flowers in their bouquets.

At the reception held at the Peter Pan, guests were received by the bride's sister, Mrs. Alec Middlemass, wearing a pink and maroon redingote with blue accessories, and the groom's mother in a two-piece, embroidered-jacketed model of Queen's blue and black hat. Both wore carnations.

The bride's travel attire was a beige frock topped by a green coat, with brown accessories and sweetheart roses in a shoulder spray.

## STRACHAN-BARWOOD

VANCOUVER — Gleaming white satin fashioned the wedding gown of Kathleen Selina Barwood, daughter of Mr. and Mrs. L. C. Barwood, who, Saturday evening, became the bride of Allan Charles Strachan of Victoria, son of Mr. and Mrs. A. X. Strachan.

The ceremony was performed by Rev. W. Cooper in St. James' Anglican Church, when the bride was attended by Miss Olga Klem and Miss Agnes Strachan, and Mr. Roland Edward, R.C.N., was best man. Ushers were Messrs. Bob Robertson and L. Bertram, R.C.N.

In traditional bridal style was the wedding gown, and froths of veiling cascaded from a coronet of natural flowers which were repeated in the bride's bouquet of talisman roses, carnations and heather. Her attendants were in cameo pink and blue sheer, carry-

ing carnations and sweet peas which were also in their topknots. The White Rose ballroom was the setting for the reception at which Mrs. Barwood, in a beige frock with white accents and corsage of pink carnations, greeted the guests with Mrs. Strachan, in desert rose with similar corsage. A three-tier cake centred the bride's table.

When leaving for a wedding trip to Vancouver Island the bride was wearing a pearl grey dress and coat with black accessories and corsage of talisman roses, carnations and heather. The couple will make their home in Victoria.

## SAMPSON-SHOWERS

A quiet wedding took place at 8 p.m. on September 1 at 1042 Balmoral Road, when Winnifred Peggy, daughter of Mr. and Mrs. J. Showers, became the bride of Pte. Harold Henry Sampson, 1st Battalion Canadian Scottish, eldest son of Mr. and Mrs. C. Sampson, Ganges, B.C. The ceremony was performed by Rev. E. Showers, mother of the bride.

The bride was given in marriage by her father and wore an ice blue princess dress with hat to match, with a corsage of pink heather and carnations. The bridesmaid, Miss Nora Prewitt, wore a dress of rose silk crepe and white turban, with a corsage of pink gladioli tips. Assistant Cook Ernest Sampson, R.C.N. V.R., brother of the groom, was best man. The bride's mother wore a dress of navy blue crepe with a corsage of pink carnations, and Mrs. C. Sampson, mother of the groom, wore a dress of maroon crepe with a corsage of white carnations.

The rooms were decorated with white and blue streamers, white bells and white and gold flowers. For the reception the table was covered with a lace cloth and centred by a three-tier wedding cake. Vases of Talisman roses and blue and white streamers provided the decoration.

Many lovely gifts were received, including one from fellow employees of the bride at Hudson's Bay Store. Mr. and Mrs. Sampson left for a honeymoon at Vancouver and Salt Spring Island, after which they will return to Victoria to live.

## JOHNSTON-MELLOR

In the vestry of First United Church Sunday afternoon at 1. Rev. Hugh A. McLeod united in marriage Enid, elder daughter of Mrs. Mellor, East Saanich Road, and the late Mr. F. Mellor and William Johnston, eldest son of Mr. and Mrs. A. Johnston, 245 Menzies Street. The bride was given in marriage by her cousin, Mr. M. R. Henderson, and wore a beige dressmaker suit with black accessories and a corsage of Talisman roses. Miss Adrienne Mellor was her sister's bridesmaid, and Mr. Ian Donaldson acted as groomsmen. Following the ceremony a small reception was held at the home of the groom's parents, where shaggy chrysanthemums in varied hues adorned the rooms. A handsome cake centred the bridal table which was covered with a lace cloth. Mr. J. M. Thomas, uncle of the bride, proposed the toast, after which the bride cut the cake.

Following a honeymoon trip up-island and to the interior of British Columbia, Mr. and Mrs. Johnston will make their home on Simcoe Street.

## FRASER-MURRAY

The marriage is announced of Adria Marion, youngest daughter of Mrs. R. B. Murray, "Dalmeny," Colwood, and the late Mr. R. B. Murray, to Mr. Duncan Fraser of Sutherland, Scotland. The marriage took place August 19 in Vancouver.

## LANGHAM-BUSHNELL

At a quiet wedding in St. Andrew's Presbyterian Church on Friday evening at 8, Rev. J. L. W. McLean united in marriage Ann Letitia, third daughter of Sergt. and Mrs. T. G. Langham, Vancouver, and Robert Bowden Bushnell, telegraphist, R.C.N.V.R., Calgary, eldest son of Mr. and Mrs. Earl Bushnell, Calgary.

The bride wore a blue figured crepe dress with blue accessories, and corsage bouquet of roses. She was attended by her sister, Mrs. Dorothy E. Briscoe, wearing a beige dress with a corsage of roses. The groom was attended by Mr. George Holt, R.C.N.V.R. A small reception was held at the Empress Hotel.

For a two weeks' honeymoon at Qualicum, the bride left in her wedding outfit, topped with a blue fitted coat and corresponding accessories. Mr. and Mrs. Bushnell will reside on McGregor Avenue, Victoria.

The bride's mother and her sister, Margaret Langham, attended the ceremony, also Mrs. D. Carmichael of Vancouver, B.C.

## McCULLUM-THACKER

The First United Church was the scene of a wedding Saturday evening at 7.30 when Rev. Hugh McLeod united in marriage Isla May Thacker, youngest daughter of Mr. and Mrs. Charles Holloway, Ochre River, Manitoba, and Petty Officer E. J. McCullum, son of Mr. and Mrs. R. McCullum, Fort William, Ont.

The bride looked smart in a two-piece navy blue and white dress, navy blue sailor hat and shoes, with matching accessories. Her corsage bouquet was of pink rosebuds and white heather. Mrs. A. B. Southon attended the bride in a black dress and black pillbox hat. Her corsage was of pink rosebuds and purple violas. Chief Petty Officer R. Carter was best man.

After the ceremony a reception was held in Terry's Rose room which was artistically decorated for the occasion. C.P.O. Carter proposed the toast.

After the honeymoon Mr. and Mrs. McCullum will reside at the Venture Apartments.

## MACNEILL-RANCE

Saturday evening at 8.30 at St. John's Church, Rev. George Biddle united in marriage Margaret Ellen (Peggy), only daughter of Sergt. and Mrs. E. T. Rance, 2553 Prior Street, and Phillip George Collie MacNeill, 2276 Cadboro Bay Road, second son of the late Major G. W. C. MacNeill and Mrs. MacNeill, Cadboro Bay Road.

The bride, who was given in marriage by her father, wore a floor-length gown of sheer white chiffon, her veil falling from a coronet of orange blossoms, and she carried a shower bouquet of pink Ophelia roses and white carnations. Miss Edna Steer, the bride's cousin, and Miss Muriel Zala were the bridesmaids, dressed in similar frocks of lace and chiffon, their halo hats being trimmed, one in blue flowers, the other in pink net, and they carried shower bouquets of delphiniums, carnations, roses and snapdragons. Mr. Maurice Foxgood acted as groomsmen, and the ushers were Messrs. Ernest Rance, brother of the bride, and Kenneth MacNeill, brother of the groom. An organist was in attendance, and during the signing of the register Mrs. M. Carver sang "Because."

At the reception which followed at the Odd Fellows' Hall, Douglas Street, the bride and groom stood beneath a floral arch. Mr. A. Steer, the bride's uncle, proposing the toast before the bride cut the cake. Mrs. Rance received in a royal blue chiffon costume with

navy accessories, assisted by Mrs. MacNeill in turf green crepe with matching accessories, both wearing corsages of carnations. For her honeymoon trip up-island, the bride changed to a pink dressmaker suit with a royal blue topcoat and navy accessories and a corsage of gardenias. On their return, Mr. and Mrs. MacNeill will make their home at Cordova Bay.

Mr. W. J. Rance of Prince Rupert, uncle of the bride, attended the ceremony.

## PURDY-MILLER

A quiet wedding was solemnized at the Presbyterian Church in North Vancouver, August 23, when Rev. Belle MacLean united in marriage Lena Florence, only daughter of Mr. and Mrs. A. C. Miller of North Vancouver, and Constable John William Purdy, son of Mrs. D. F. Purdy and the late Mr. Purdy of Victoria.

The bride was given in marriage by her father, and was wearing a navy blue ensemble with matching accessories and a corsage of Talisman roses. Her only attendant was Mrs. Winnifred Connelly, wearing a rose dress with blue accessories and a corsage of Talisman roses. Constable James Russell of New Westminster was best man.

The reception was held at the Olympic Hotel in North Vancouver. The couple left for the north, where they will reside.

## Hems Dip Front Or Back for Fall

By AMY PORTER  
NEW YORK (AP)—When a dress dips down long in back so you catch your heels in it, you know it's an evening dress.

When it dips down long in front, so you can catch your toes in it boarding a bus, you know it's for daytime wear.

Generally, either dress is black. If it isn't black, it is tinted to wartime colors — British vermilion or American khaki.

And whatever the color, it's apt to be what's known as an illusion dress—that is, it gives the impression of nudity while maintaining absolute modesty.

Such were the noticeable trends today at the first day of this week's American fall fashion openings.

Jay Thorpe led off the style parade with such confections as a pencil-slim evening dress of black velvet, topped off with a deep yoke of flesh-colored chiffon. There's a distinct illusion of bareness, broken only by a safety-device applique of leaf-shaped cut-outs in velvet. The skirt is slit to the knee.

The combination of skin-tight skirts and hip-camouflaging peplums, tiers and tunics, is reminiscent of 1919 fashions.

The V-for-victory, or plunging, neckline is not exactly new, but its popularity continues unabated.

Glitter prevailed in sequins, in jet beads, and luxury spread itself by way of mink and feather trimmings.

Hurry! Foster's are extending their August Fur Sale for a few days.

## Economical Veal Is Better When Cooked Slowly

By MRS. GAYNOR MADDOX  
Of all the meats available to the housewife, veal is among the most tender. Because veal is a lean meat, slow cooking gives the best results. Its flavor blends well with all vegetables.

Being almost all solid meat, veal is a good economy buy. A knowledge of the different cuts and their uses will produce better meals for less money.

Quality veal is a pinkish-grey color. The lean meat is fine grained but does not show the marbling of the older beef. The proportion of connective tissue to lean is greater than in beef; so also is the percentage of bone. The bones are porous and reddish in color, and although there is not much fat, whatever there is, clear, hard and white.

## Roast Leg of Veal

Place leg of veal on a rack in an open roasting pan. Season it with salt and pepper. Make an incision and insert a meat thermometer so that the centre of bulb reaches the centre of fleshiest part of meat. Be sure that it does not rest on the bone.

Put the roast in a slow oven (300 degrees F.) and roast without covering and without adding water. When the meat thermometer registers 170 degrees F., the veal is done. Allow about 30 minutes per pound for roasting. If desired, squeeze a few drops of garlic juice into olive oil and baste meat occasionally.

## Veal Chops in Sour Cream

(Serves 4 to 6)  
Six veal chops, 2 tablespoons flour, 2 tablespoons lard, 1 cup sour cream, paprika, salt and pepper.

Dredge veal chops in flour and brown on both sides in hot lard. When nicely browned, season with salt and pepper and paprika. Add sour cream, cover tightly, and cook very slowly until done, about 45 minutes. Remove to a hot platter and make sour cream gravy by thickening drippings and adding more liquid.

## Tomorrow's Menu

Breakfast: Pineapple and lemon juice, oatmeal, cinnamon toast, coffee, milk.  
Luncheon: Cheese soufflé, cabbage and celery salad, whole-wheat bread, applesauce cake, tea, milk.

Dinner: Veal cups in sour cream, noodles, buttered broccoli, lettuce and grated raw carrot salad, prune pie, cheese, coffee, milk.

## Women's Army Corps In Britain Nears 200,000 Mark

By WILLIAM STEWART  
LONDON (CP) — As Canada starts building its women's auxiliary corps, Britain's equivalent — the Auxiliary Territorial Service — approaches the strength of the territorial army in peace time.

Women are joining the A.T.S. at a rate between 2,000 and 3,000 a week, and the "target" figure of 200,000 soon will be exceeded. Women from many parts of the Empire have enlisted.

The A.T.S. is the largest women's force in Britain. "ATS" serve on the crews of anti-aircraft batteries. They work at radio location. They test ammunition, check the accuracy of gunfire and perform other specialized duties.

In addition, they serve as drivers, mechanics, dispatch riders, wireless and teleprinter operators, clerks, typists, draughtswomen, cooks, waitresses and hostesses. Some travel the country showing instructional films to the troops.

Their khaki uniform has become the women's service dress most familiar to the Briton-on-the street.

The chief controller is 33-year-old Mrs. Jean Knox, who rocketed in a little more than two years from the rank of company commander to her present rank, corresponding to that of major-general.

Before the war, Chief Controller Knox, mother of a daughter of 12, led the quiet life of a housewife.

Service pay starts at the equivalent of 32 cents a day, ranging upward to the equivalent of \$7 for a chief commander. "ATS" are supplied with all their clothing down to undies.

A circular says: "You are not obliged to wear the issue of underclothes, but they are really nice and you will have no objection to wearing them when you do try them for yourself."

They get free medical and dental care, dependents' allowances and compensation in the event of disability. Unemployment and national health insurance is kept up for them and they are guaranteed readmission after the war to any trades unions to which they belong.

A recruiting pamphlet says: "It's a woman's war now—the sooner you join up, the sooner the men will be back, the sooner the bombing will be over, the sooner the war will be won."

### Army Trade Courses For Youths of 18

Lt.-Col. H. E. Goodman reports that the Minister of National Defence has announced that youths of 18 may be accepted for enlistment for trade training only.

These recruits must first complete two months' basic military training.

Youths of 18 years and 6 months may be enlisted for service in Canada only and all above 19 for full active service.

The need for increase in enlistments is imperative and will be a major effort of the Department of National Defence. There will be no more district quotas but a constantly pressed drive for recruits throughout the Dominion to yield between 7,000 and 10,000 each month for active service.

This number is urgently needed to maintain present requirements for the 6th Division, ancillary troops, to complete establishments still under full war strength and to replace wastage.

### Colquhoun and Martin Named

OTTAWA (CP)—Brigade commanders for the 13th, 14th and 15th infantry brigades, which are in course of organization for the 6th Canadian Division, were announced today by Defence Minister Ralston.

Brig. W. G. Colquhoun, M.C., Victoria, formerly O.D. of the P.C.L.I., is appointed to command the new 13th infantry brigade. Brig. O. M. Martin, Toronto, will command the 14th infantry brigade and Brig. P. E. LeClerc, M.M., V.D., Montreal, will command the 15th infantry brigade.

Brig. Martin has, since June, 1940, been in command of the 13th infantry brigade. He is now commandant at Camp Nanaimo. He is a full-blooded Iroquois Indian.

### Chaplain Named To B.C. Regiment

TORONTO (CP)—Lieut.-Col. George C. Fallis, senior Protestant chaplain of Military District No. 2, today announced the appointment of Rev. Robert S. Boyd, Toronto, as chaplain of the British Columbia Regiment of the 10th Infantry Brigade, now stationed at Niagara. Mr. Boyd recently returned from Mayo, Yukon Territory, where he had been stationed with the Church of England for three years.

### Canadians Tend Garden Overseas

SOMEWHERE IN ENGLAND (CP)—One of the largest gardens in the Canadian army overseas is tended by members of a casualty clearing station recruited in western Canada.

More than two acres of almost every vegetable—potatoes to broccoli—are under cultivation and crops have been so successful the station has been able to send a surplus of some vegetables to other units.

The garden, on the estate of a knight whose home is being used by the Canadians, was planted last spring by the westerners and has been kept up by officers and men of the station staff and patients.

Most credit for its success is due to Capt. J. S. Gardner of Edmonton. When the southeastern command began its "dig-for-victory" drive last spring, the clearing station decided to make use of its ground "and as my name is Gardner, I took the job," the captain said.

He has a permanent staff of two whose full-time job is looking after the garden. They are Pte. Bruce Switzer of Edson, Alta., a druggist apprentice before he joined the army, and Pte. Tom Houghton of Edmonton, a professional gardener.

Greenhouses helped bring the vegetables through their early days and the station staff had lettuce and other spring vegetables several weeks before they appeared on the general market.

Since the spring there has been a steady flow of vegetables for patients and staff. Every inch of space was used—potatoes were planted in flower patches—and the widest variety of vegetables grown.

Half the garden is given over to potatoes and Capt. Gardner expects the crop will keep the station in stock all winter.

### Loggers' Sports

DUNCAN—The loggers' sports staged in connection with the Cowichan Fall Fair, as well as the women's nail driving competition, the Highland dancing and piping, attracted a great deal of interest.

Winners of the logging sports were:

Novice sawing—1, D. Aitken; 2, E. Whitaker; 3, Charlie Williams.

Novice chopping—1, Allan Heyd; 2, John Evans; 3, Doug Aitken.

Tree climbing—1, C. Waldie, 27½ seconds; 2, Dougan, 33½ seconds; 3, J. Kerrone, 49 seconds.

Open sawing—1, R. Young; 2, P. Whitaker and A. Heyd (tied).

Open chopping—1, Garnt Deuchars; 2, Phil Whitaker; 3, A. Heyd.

Womens' nail driving—1, Mrs. J. Young; 2, Mrs. K. Stewart.

### Henry Schroefen Wins Snap Contest

Henry Schroefen, 631 Superior Street, won first place with his entry "Happy Days" in the August amateur snapshot competition of the Victoria Daily Colonist. The winning picture shows a young troubador with a guitar, serenading his spaniel.

Second prize was awarded to H. Whitaker, 411 Chester Street, who submitted the character study, "Tough Guy."

A scenic picture, "Evening at Alta Lake," won third prize for Miss Dorothy Newman, 34 Obed Avenue. Fourth prize went to Mrs. J. S. Hull, 2606 Dalhousie Street, for a photograph entitled "How Do I Look in This?"

Judges were Wilfred Gibson, E. J. Savannah and Hester Wilkinson, portrait photographers.

D. M. "MAC" ANDERSON

eldest son of Mr. and Mrs. J. C. Anderson of Sidney has been accepted into the ranks of the R.C.A.F. He will go to Edmonton to take a pilot's course. "Mac" is 18 years old, and has attended Glenlyon and Shawnigan schools. Before leaving he was employed at Yarrow's Ltd.

### Victoria Fair Opens Saturday

In announcing the judges for the Victoria Fair opening at the Willows, commencing Saturday, W. H. Mearns, secretary of the B.C. Agricultural Association, stresses the need for exhibitors to have their displays in place not later than noon on the opening day.

The opening will take place at 2.15 Saturday afternoon in the Main Building amid an array of floral and farm products. Premier T. D. Pattullo will officiate. Members of the provincial cabinet, the mayor and reeves and other public dignitaries will be present.

Judges for this year's fair are as follows: Heavy horses, William Shepherd, of Steveston; light horses, Dr. M. Sparrow, of Steveston; beef cattle, A. D. Paterson, of Ladner; Holsteins, W. Wood, of Steveston; Jerseys, W. S. Wainwright, of Vancouver; Guernseys, Charles Thorne, of Chilliwack; Ayrshires, J. Brown, of Fairbridge; R.O.P. records, G. H. Thornbery, Provincial Department of Agriculture; sheep, Dr. W. R. Gunn, Provincial Department of Agriculture; swine, J. W. Shannon, of Cloverdale; goats, Mrs. F. B. Monteith, of Lonsdale; poultry, H. U.S. PLANES TO JAMAICA KINGSTON, Jamaica (AP)—United States planes will be stationed on this British island in a month's time and American troops will be here within two months, Maj.-Gen. Daniel van Voorhis, commandant of the Panama Canal Zone, has announced.

# The Store THAT *Eddy-conomy* BUILT!

*A Reflection of the Past  
A Pledge for the Future*

When Eddys first opened its doors in this location some seven years ago it was with one very definite idea—one very simple idea—TO BRING TO THE LADIES OF VICTORIA THE POSSIBILITY OF "ELEGANCE WITH ECONOMY" IN A DEGREE NEVER BEFORE POSSIBLE.

And another idea which has added to the fame of Eddys is the fact that here there is always a showing of the EXTRA LARGE SIZES, so that ladies of commanding figure may enjoy the same selection as the slim young things with the "Cigarette Silhouettes."

And we are happy to know that today hundreds of ladies in Victoria and all over Vancouver Island acclaim this idea as an accomplished fact—an idea for which we have coined the apt term "EDDY-CONOMY"

And what of the Future? Already we have heard the suggestion that Eddys must be going "High Hat," that such a lovely exterior must presage higher prices and greater profits.

And the fine new Store which opens its doors tomorrow is the result of carrying out that idea to its logical conclusion and fulfillment. It has been our constant endeavor to be FIRST with the FASHIONS in Women's Wear—ALWAYS—and to present those Fashions at such economy prices that ladies with the most modest budgets could share in the delights of choosing from the latest and smartest.

Our plan has been successful beyond even our most sanguine expectation, and the Establishment to the opening of which you are invited tomorrow, is the gratifying and tangible result.

## So Here Is Our PLEDGE—

A Policy of Economy Prices that has won for us many friends in the past, and has made possible a building of which Victoria may well be proud, IS A GOOD POLICY FOR THE FUTURE. If there is any change in our methods of merchandise it will be in the nature of even greater economies for our Patrons, and the bringing together of even finer selections.

We believe that women enjoy looking at lovely things in lovely surroundings, and we are happy to be able to present Victoria with a Fashion Display Front that we believe is not excelled in any City in the Dominion.

May We Have the Pleasure of Your Presence  
At the Opening Tomorrow?

## A TRIBUTE

The work that has brought about this metamorphosis has been done in record time, and to our Architect, Mr. C. E. Watkins, to the Contractors, Luney Brothers, and to every one of the men who put Brain and Brawn into its building, we say sincerely and gratefully—"THANK YOU."

## Issue 3,495 Vehicle Licenses in July

Exactly the same number of licenses for private passenger cars and commercial vehicles was issued by the motor vehicle branch of the B.C. Police in July this year and July last year, it was reported today. The number was 3,495.

In July this year 2,711 passenger car licenses were issued, which was 112 less than the number issued in the same month of last year. This year 112 more commercial licenses were issued.

In the seven months ending July 31, 7,588 more licenses were issued this year than last. This year's total was 122,810, and last year's 115,222.

The number of passenger car licenses issued this year was 99,171, compared with 93,524 last year. Commercial licenses issued this year totalled 23,639, and last year 21,628.

Licenses for motorcycles issued this July numbered 94. In July, 1940, 101 were issued. Number of trailer licenses issued in July this year was 290, and in July last year 271.

## Triple Monthly Property Sales

Property sales in Victoria during August were three times the volume and the value of those for the similar month last year, the city lands office reported today.

In all, 21 parcels were sold for \$16,575 last month, against seven for \$4,560 in August last year.

Those deals pushed the volume of sales for the year to date to 244, against 1186 during the first eight months of 1940. Values were listed at \$107,064 and \$56,542 respectively.

Cash receipts, including rentals and sales payments, up to August 31, amounted to \$131,097, including last month's \$10,617. At the same date last year they were \$105,731, including \$15,170 for August.

At a local hotel Mrs. Elizabeth Jaquemot of Long Beach, Calif., who visited Victoria last week, would not take the 10 per cent due to her on her American money, but left for the Red Cross.

VICTORIA'S OLDEST  
DEPARTMENT STORE

**FOR 68 YEARS WE'VE BEEN KEEPING  
OLD FRIENDS.. AND MAKING NEW ONES**

**I**T is with considerable sentimentality and a great deal of pride that we review the past 68 years of our storekeeping. Turning the pages back as far as records go, we find that ours has been a thriving, growing business — built by friends who have responded with years, yes, even scores of years, of loyalty and appreciation for our adherence to the principles of progressiveness, service and fair dealing.

To keep these friends has always been, and always will be, the policy of our relationship with our patrons. Yet, we take great pride in knowing that through the passing years we have kept stride with current trends to the extent that our register of friends has increased by leaps and bounds.

We point to this enviable accomplishment of keeping old friends and making new ones with justifiable pride—and publicly pledge to further our service to Victorians throughout the years to come—to ever keep our institution always fully worthy of the confidence of our clientele.

## Award Made In Taxi Dispute

A 5-cents-an-hour increase in wages, already agreed to by employers, seniority rights, one week's holiday with pay, and provision of uniforms, where they are required, were granted drivers of four Victoria taxi companies in the award of an arbitration board made public by the Department of Labor today.

The board, composed of J. Howard Harman, Archibald Clyde and Maris Hale, did not grant recognition of National Drivers' Union, Local No. 1, as sole bargaining agent for the men, one of the main points at issue, nor did it change the hours of work.

It, however, provided that bargaining agents should be two representatives elected by majority vote of the men in each company, and who need not necessarily be employees. It added that with the union's present membership and standing these representatives probably would be union officials, but that if the union could not continue to hold the men's confidence there was no reason it should have a monopoly as bargaining agent.

Companies concerned in the dispute were: C. & C. Taxi, Island Taxi, Safety Cab Company and Quarter Cab. The Labor Department said an agreement based on the finding has already been signed by employees of the C. & C.

### No General Rise Due in Shoe Prices

OTTAWA — Preliminary reports on fall and winter shoe prices received by the Wartime Prices and Trade Board indicate that retailers are conforming to the June forecast of Hides and Leather Administrator Maurice Samson that there would be no general increase in the retail price of shoes in the last six months of 1941.

Many retailers, embracing a considerable number of cities and towns in the Maritimes, central Canada and the west, state that prices in all shoe lines are unchanged from spring levels, and where prices have been altered to take care of increased costs, the average increase to the purchaser is less than 25 cents a pair.

## Weatherman Says Rain to Continue

Old Jupiter Pluvius has taken upon himself the task of welcoming September into the city of Victoria, and during these first three days of the autumn month has performed his duties in the best of showery tradition.

He offered vacationing citizens a damp Labor Day, a showery second of September and today was depositing moisture with all the gusto he could summon. From 3 this morning until an hour before noon six-tenths of an inch of rain had fallen and the weatherman could offer no consolation for the immediate future.

The forecast is that Mr. Pluvius will continue with his antics for the rest of today and all tomorrow. Last year the month opened with cloudy weather, which failed to develop into raindrops, but after the first week the pall lifted and the city basked in Indian summer.

The maximum temperature on Labor Day last year was 61 degrees and this year 59. At 11 this morning the mercury tube on the thermometer at Gonzales Heights had struggled up to 54 degrees.

## City Churches Will Mark Anniversaries

After conferring last night and this morning at St. Andrew's Church, members of the Presbyterian Church concluded their annual conference.

Rev. J. L. W. McLean, minister of St. Andrew's Presbyterian Church, was elected for a second term as moderator. Rev. Samuel Lundie, Sooke, was requested to continue as clerk with Rev. T. H. McAllister as assistant clerk. A vote of appreciation for Mr. Lundie's work was passed by the delegates.

At a three-hour meeting this morning the commissioners to the general assembly at Toronto in June, Rev. James Hyde of St. Paul's Church and Rev. J. M. Niven of Knox Church, presented their reports.

Rev. E. Barnes was reappointed for the coming six months to St. Andrew's Church at Duncan. There were no other changes in appointments. The work being done for the forces at Esquimalt House was commended by the Presbytery.

Mr. Lundie will represent the Presbytery and convey its greetings to the congregations of St. Andrew's and St. Paul's churches when those two edifices celebrate their anniversaries this month. Starting on September 14, St. Andrew's will celebrate its 75th year in Victoria, and on September 28 and 29 St. Paul's will hold special services to commemorate the 50th year anniversary.

## VICTORIAN HEADS YOUNG BAPTISTS

Miss Helen McKinnon of Douglas Street St. Baptist, Victoria, was elected president of the Island Association of Baptist Young People, during a well-attended rally held in Nanaimo this week.

Miss Viola Dand, Nanaimo, who presided over the conference, was named vice-president, and Roy Brain, First Baptist, Victoria, secretary-treasurer. David Parfitt was elected the Emmanuel representative.

During the business sessions the conference called for a unified program for all island groups. The program will include daily Bible reading, memorization, quiz projects, and a study of the history of the Baptist denomination.

Topics considered included "Types of Program," "How Can We Put New Life Into Our Societies?" and "New Members and Organization." Discussion on the questions were led by Miss Vera Waller, Miss Helen McKinnon and E. Gosdon.

Leading the evening devotional period, Miss Marion Stevenson spoke on "The Invincible Leader." An account of some successful Vacation Bible Schools during the summer on the island was presented by Frank Chapman.

Rev. J. L. Sloat forcefully presented Christ as a necessity to spiritual life in the address of the evening.

Percy Willis in an after-dinner speech reported on the work of the Shantymen's Mission on the island.

Musical selections were presented during the conference by Viola Dand, Jack Fairgreaves, Ted William and Miss Helen McKinnon.

A message expressing hopes for the speedy recovery of Ian Hind, at present in a Vancouver hospital, was forwarded from the meeting.

National Drivers' Union, Local No. 1, will meet at 1110 Broad Street, at 8 tomorrow night.

## No Big Jump In Coal Price

Local fuel dealers today discounted rumors of an approaching \$2 a ton increase in the price of Nanaimo-Wellington coal, but, in some cases, suggested a smaller rise might be in the offing commensurate with general production and living trends.

One firm reported assurances had been given six or seven weeks ago by the colliery sales manager no advance would be made in Nanaimo-Wellington prices to Victoria merchants in the immediate future.

Prices were reported the same as last year, Nanaimo-Wellington lump selling for \$11.75 and nut for \$10.25. Douglas nut was priced at \$9.50 a ton.

A 50-cent increase per ton was reported in recent months in Alberta sootless and another 50-cent advance was anticipated for that fuel. Last year it sold for \$12 and is now marked at \$12.50.

Higher production costs, cost of living bonuses and other general conditions were given as the reason for the Alberta boost. While Nanaimo-Wellington sources absorbed such factors when they came into the picture last, some Victoria dealers thought a further upward trend in production might result in some of the increase being passed on to consumers. They did not believe it would be anything like \$2, however.

The rumor regarding possible future increases was traced by them to a Nanaimo council story which quoted an alderman to the effect a \$2 boost might be expected in that city.

Locally some dealers found a shortage of labor tying up deliveries to a certain extent. With the post-holiday demand for fuel setting in as the rains came, distribution became a problem, but they expected to overcome it shortly. Deliveries are being made within a couple of days of orders, it was reported.

## WOMEN'S CORPS RECRUITING SLOW

Few volunteers sought today to join the Canadian Women's Army Corps, but lack of applicants was attributed largely to the heavy rain.

Applications for enlistment in the Canadian Women's Army Corps are now being accepted at C.W.A.C. headquarters, Work Point Barracks. Mrs. Norman Kennedy, staff officer for M.D. No. 11, has an office in the barracks and is proceeding with organization plans.

In Vancouver applications may be made to the National War Services office, 325 Seymour Street. This also applies to women applicants in districts where no women's auxiliary organizations exist.

The first group of applicants to be employed, or accepted for employment, will be recommended to Ottawa by the officer in charge of administration, M.D. No. 11.

Mrs. Kennedy said a number of applications had been made yesterday and that many were expected from members of local volunteer organizations.

Members of these organizations, already experienced in various types of war work, will receive preference if they possess the necessary qualifications, she indicated, but individuals without service group connections also will be given fullest consideration on the basis of ability.

About 80 women will be enlisted in the district comprising Victoria and Vancouver. Pay and allowances will start immediately for women accepted, but those joining must pass through a three-months' probationary period before they will be attested.

New uniforms are not as yet authorized. However, it is understood that members of women's service corps may be allowed to wear their uniforms until new uniforms are issued.

Volunteers in M.D. No. 11 will be assigned regimental numbers, prefaced with the letter "W", between 11,000 and 11,999.

Method of appointing officers has not yet been announced. Mrs. Kennedy said that so far, none of the applicants had sought to make enlistment conditional on a commission. All applicants, she said, would join as ordinary recruits.

The staff of women now serving as civilian stenographers, switchboard operators and cooks would not be affected by organization of the C.W.A.C., Mrs. Kennedy believed.

### 2-Inch Trench Mortars Made in Canada

OTTAWA (CP) — Adding another weapon to the list of munitions produced in Canada for the first time, the successful proof-firing of two-inch trench mortars was announced today by Munitions Minister Howe.

## TOWN TOPICS

Monthly meeting of the parents of the Victoria Boys' Band will be held Wednesday night in the committee room, City Hall at 8.

A meeting of the Mission to Lepers will be held at 1012 Chamberlain Street Friday afternoon at 3. Mrs. Bird of Pasadena will speak.

A car belonging to George Peterson, Fairfield Hotel, was stolen from outside the City Hall last night, it was reported to city police.

R. A. and M. E. Clarke secured a permit for a \$2,500 four-room single-family home at 2760 Belmont Avenue from the city building inspector's department late yesterday.

The Victoria and District Chrysanthemum Society will meet tomorrow night at 8 in the City Hall. Points in regard to preparing plants for the fall show will be given. Members may bring in blooms for display at this meeting.

More than half of the lots offered in the smallest Saanich tax sale in years were bought during the opening day of the sale, it was announced today. The sale will continue until Saturday at the Municipal Hall, Royal Oak. Thirty-six lots were sold yesterday for a total of \$1,510.75.

H. J. Mero, president of Truscon Steel Company of Canada Ltd., Walkerville, Ont.; Dr. Hugh J. Durocher, Windsor, Ont., physician, and Chris H. Nelson, president of the B.C. Journal of Commerce, Vancouver, are registered at the Empress Hotel after a fishing trip to Port Alberni over the holiday week-end.

City police today received a request from Frances Marcoux, Seattle, for information regarding the whereabouts of her brother, Louis A. Macoux, or his family, who lived in Victoria 25 or 30 years ago. A request was received also from Mrs. Florrie Clarke, Long Beach, Calif., for information regarding the whereabouts of her brother, Ray Palmer, 48 years, who worked as a cook on boats running between Vancouver and Los Angeles.

## HAY DESTROYED IN ESQUIMALT FIRE

Twenty-five tons of hay, a cow shed and a milk house were destroyed by fire on the farm of William Stevenson, Colville Road and Phoenix Street, yesterday afternoon and evening, Esquimalt firemen reported.

It was the first major fire of the year in Esquimalt and kept firemen busy for five hours.

Constable G. Stancombe of the municipal police department said the fire started at about 4 in the afternoon when two youngsters were playing in the hay. One of them dropped a flaming piece of paper into the hay and the fire soon spread. The hay was stacked under a covering. Flames moved from the stack to a small cow shed and milk house.

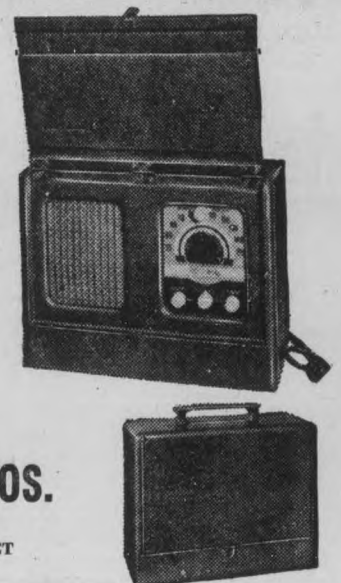

Two houses nearby, one of them the Stevenson home, were saved from the flames through the quick work of the municipal fire department.

## 'Bachelor Mother' To Be Shown at York

Gaiety and cleverness mark the new comedy romance, "Bachelor Mother," the Ginger Rogers-David Niven co-starrer, coming to the York Theatre Thursday.

Perfectly tailored to the talents of its two principals, "Bachelor Mother" deals with Miss Rogers' troubles in trying to convince the world that she is not the mother of a baby whom she finds on the steps of an orphan home. The mirth-making situation interferes with her job as a sales girl in a big department store owned by Niven's father. Niven, attempting to force Ginger to keep the baby by threatening to discharge her, incurs the jealousy of Gingers' self-appointed boy friend who misinforms Niven's father that his son is the father of the baby.

These delightful situations build to a hectic climax.

## PLAZA THEATRE

Mary and Fay stay to dinner aboard a cruiser and are unable to get ashore afterwards. The ship is ordered to sea and the admiral comes aboard, discovers the girls. Both Mary and Fay say they are married to the captain—explanations are demanded. The admiral is pacified, but finds himself that explanations are difficult things, when his wife starts asking questions too.

Finally the admiral's wife is surprisingly disconcerted when yet another lady is found to have been aboard during the Middle Watch, which is now being shown at the Plaza Theatre.

## James Cagney in 'Strawberry Blonde'

Jimmy Cagney, who put the roar in the "Roaring Twenties," is now bowling them over as a bad boy of the Naughty Nineties, in Warner Brothers' "The Strawberry Blonde," which will make its local debut at the Atlas Theatre tomorrow. Cast with Cagney and deked out in their best bustles are lovely Olivia de Havilland and demure Rita Hayworth.

"Strawberry Blonde" captures all the charm and quaintness of the mauve decade. The customs, songs and jokes of that era make a delightful background to a warm drama.

## Navy Net Snares Big Ship

It's doubtful whether the lad fishing, foreground, in this picture will ever meet the competition of the U.S. Navy's new submarine net, just inside of San Francisco's Golden Gate. Instead of snagging an enemy submarine as its first prize, the steel net ensnared the prosaic lumber schooner Daisy Gadsby when the ship, inbound from Oregon, fouled its propeller and rudder of the edge of the net, while creeping into the harbor through a dense fog. It was finally freed by tugs and a net tender. Note buoys around ship, experimental mines at left.

## Log May Restore Woman's Memory

LOS ANGELES (AP)—The log of the ill-fated yacht Wing On will be used in an effort to restore the memory and walking ability of Mrs. Fern Thompson, only survivor of two couples who sailed a year ago from Los Angeles harbor in quest of pearls in the South Seas.

Mrs. Thompson's husband and another young married couple died at sea of starvation and exposure. The wrecked yacht was discovered on a reef off the Macarua coast of the Fiji Islands last November 24. Mrs. Thompson was aboard with the bodies of two of the victims. "The log and all of its contents will remain secret until Mrs. Thompson recovers sufficiently to express her own desires concerning it," said Attorney Robert Webb, who obtained the black

leather volume from British authorities in Suva, Fiji Islands. Dr. Samuel G. Benadom, who is treating Mrs. Thompson, said that bits from the log would be memorized and introduced casually into conversations with Mrs. Thompson. With recovery of her memory, Dr. Benadom said, she may also learn to walk normally.

## New Boat Launched At Galiano Island

At Georgeson's Bay, Galiano Island, the naming and launching of the boat Active Pass took place. The boat was built by George Georgeson Sr., boat-builder and resident of Galiano and Mayne islands, with the assistance of his owner, Alec Mallish of Galiano Island. Mr. Georgeson has built several boats in the past on Active Pass, among them the Mizpah. The traditional bottle was broken over the bows of the Active Pass by Miss Mary Hawthorne, grandniece of the builder.

## Leather Jacket Trail

REDDING, Calif. (AP)—The trail of a leather jacket, found on the river bottom, near the wrecked streamliner "City of San Francisco," in 1939, led persevering investigators today to an asylum inmate, said to be "nuts" on the subject of the fatal Nevada wreck. Deputy Sheriff Al Meeker expressed belief the newest suspect was the most important of the long search for the criminals whose dereliction of the fast Southern Pacific train brought death to 24 persons and injuries to 108 more, in a canyon near Harney, Nev., August 12, 1939.

The leather jacket, pictured the country over in police and railroad posters offering reward for information leading to the wreckers—was traced as long ago as last January, Southern Pacific agents said, to a man in Oregon.

## Over 7,000,000 Tons Sunk

## Battle of Atlantic Enters Third Year

By CHARLES FRANCES  
NEW YORK (AP)—The world's great shipping lanes today enter their third year as routes of death and destruction that have involved 29 nations and sent more than 7,000,000 tons of merchant and naval vessels to the bottom with a large toll of human life.

Censorship, claims and counter-claims preclude any exact summing up of the huge price exacted by sea warfare, but records compiled by the Associated Press reveal that 1,880 ships aggregating 7,041,898 gross tons have been sunk, while 15,688 persons have lost their lives and 9,253 are missing.

The records show that the British merchant marine, leading tonnage loser, has shrunk by 2,908,767 gross tons. (This figure, representing about 9 per cent of her prewar tonnage, is lower than Britain announced in July for 21 months of war, but it includes only verified sinkings, and the Admiralty has not yet disclosed the names of some destroyed vessels.) And in these disastrous statistics—they average 2½ naval and merchant ships and more than 21 lives lost daily for two years of war—the airplane has had an ever-present influence, although its supremacy over the warship is still debated among students of warfare.

## PLANES' SUCCESS

Perhaps the plane's most spectacular success was achieved in the four-day battle and chase last May that began with the blowing up of Britain's largest warship, the battleship Hood, by a fortuitous shot at 14 miles from the new 35,000-ton German battleship Bismarck and ended with the sinking of the Bismarck under a hail of shells and torpedoes from a

who said he had given the jacket away to a cold, wet itinerant. Deputy Meeker said the Oregon man today identified the asylum inmate as Ukiah as the itinerant. Asylum attendants reported the inmate was always eager to talk about the wreck.

## Bargain Excursion

A bargain fare excursion will be operated by the Canadian Pacific Railway from Victoria, Nanaimo, Vancouver and New Westminster to interior B.C. points, September 12. Tickets will be honored only in day coaches and will apply to main line stations, Barnet to Field, Okanagan stations, Enderby to Kelowna and intermediate points, and Kettle Valley stations, Hope to Penticton. Passengers for main line stations and Okanagan points reached via Sicamous will leave Vancouver on 10 a.m. or 7.15 p.m. trains, September 12, New Westminster passengers connecting with these trains at Penticton. Passengers for Kettle Valley stations will leave on the 8.05 p.m. train only September 12. Victoria passengers may use the midnight sailing September 11, or the 6.30 a.m. or 1.45 p.m. steamers from Nanaimo September 12, also may be used for the Vancouver connection.

## New York Stocks

NEW YORK (AP)—Stocks experienced a moderate downward pull Wednesday as bullish tendencies in lately-favored groups fizzled out.

Despite irregularity at the opening the market for a time was on relatively steady ground. A failure of the aircrafts to extend Tuesday's upturn brought out a little general selling, and from midday on fractional losses were the rule. Steels were heavy throughout. There were a fair number of resistant sports at the close.

Stocks down most of the day included U.S. Steel, Bethlehem, Youngstown Sheet, U.S. Rubber, Boeing, Douglas, United Aircraft, Consolidated Aircraft, Westinghouse, Union Carbide and Standard Oil (N.J.). Firm a good part of the time was N.Y. Shipbuilding Chesapeake and Ohio, Anaconda, Woolworth and Allied Chemical. Cuban-American Sugar \$7 7/8, advanced around 3 points to a 1941 high after announcement of dividends of \$6.25 a share, \$4.50 of which applies to arrears.

Canadian stocks were unchanged while in the bond market Canada 4½ were unquoted.

## Pluses in Majority

MONTREAL (CP)—General buying sent leaders on the stock market upward Wednesday and near the close pluses had swamped losses.

Industrials as a group attracted most attention and improved issues were Hamilton Bridge, Gypsum, Foundation, at a new high, Dominion Tar, Dominion Bridge and Building Products. Alcohol and General Steel Wares were laggards.

C.P.R. was stronger and Canada Steamship Pfd. recovered an early slip and posted a gain. Dosco B and Canadian Car issues were harder but National Steel recovered.

Utilities were stronger but British Columbia Power A was behind.

## Malartic Soars

TORONTO (CP)—Trading steamed up and prices advanced in the early part of Wednesday's Toronto exchange session, but the later period was less bullish and some of the gains were dropped.

Malartic gold fields had turned over about 70,000 shares and advanced 19 cents to \$2, the year's high. Pamour firmed nearly 10 cents and Preston touched 3.35 and held most of the 15-cent gain.

Nickel, Hudson Bay and Smelters gained fractions and the close was up 5 cents or more for Waite Amulet, Pend Oreille and Sudbury Basin. Steep Rock, Jack Waite, Sherritt and Denison Nickel firmed narrowly.

Most industrial groups posted more gains than losses and several issues, including Bell Telephone, Canadian Bakeries preferred, Canadian Breweries preferred and Montreal Power added a point or more.

Western oils closed unchanged but for minor losses for Okalta and Anglo-Canadian.

## Wheat

WINNIPEG (CP)—Wet weather in the prairie provinces which has hindered threshing operations and held up deliveries was responsible for gains of ½ to ¾ cent on Winnipeg Grain Exchange wheat futures pit today. Scattered local buying found hedging sales light and prices climbed to 72½ for October, 74½ for December and 78½ cents a bushel for May futures.

In the coarse grain pits prices ruled ¼ to 1 cent higher generally with lack of offerings, due to weather chiefly responsible. Mill buying in oats and local investment buying in barley was on a minor scale, and there was also a little local spreading in barley. Flax and rye were almost neglected.

Cash wheat enjoyed a fair demand in most grades but buyers were not pressing for supplies. Spreads remained mostly unchanged.

Chicago quotations gained 1½ cents on buying stimulated by the agricultural economics report from Washington yesterday that wheat prices would rise. Buenos Aires prices closed ½ lower to ¾ higher.

## QUESTION FROM OSTEOPATHS

There is an urgent need for doctors in the Canadian armed forces. The services of osteopathic physicians have been offered to Ottawa more than one occasion since the beginning of the war, and have just as frequently been refused. On June 30, 1941, President Roosevelt signed a bill providing for the employment of internists who are graduates of reputable schools of medicine or osteopathy. This provision definitely recognizes osteopathic education as adequate to justify the service of osteopathic graduates in the medical department of the United States army. The members of the York County Osteopathic Association would like very much to know why the osteopathic profession should be ostracised from the armed forces of Canada in this time of national emergency.

## MARRIAGE ANNULMENTS

A Quebec judge, on July 23, encroached upon the jurisdiction of Ontario in granting a marriage annulment.

This decision was opposed by the Attorney-General of Ontario. He courageously said: "The government of Ontario does not concede the right to annul marriages solemnized in the province without knowing the circumstances and the evidence."

Respecting the petition that the marriage be stricken from the records the Attorney-General declared that the judge of another jurisdiction has no authority to direct what officials of this province are to do or not to do. The case in point was a marriage performed 24 years ago in Toronto by an Anglican minister, and this union was annulled in Montreal Supreme Court because the ceremony did not conform to Quebec law.

Another annulment case very interesting and confusing to British subjects transpired in Montreal courts: Clare Augusta Steva does not know whether she has a husband or not. Her marriage was annulled on religious grounds also. She is a Protestant and her husband is a Catholic. Mr. Justice Cousineau pronounced them not legally married because the ceremony was performed by a Protestant minister. This divorce was reviewed by Mr. Justice Greenshield and the marriage was declared legal.

The latter judgment was then taken to appeal by the husband, and a decision has not yet been rendered. However, in the meantime, the wife and her child must live, so she took another action to obtain alimony.

Chief Justice Greenshield decided that she entered the marriage in good faith, and consequently was entitled legally to the receiving of \$80 monthly. This judgment also has been taken to appeal. In the meantime the wife appealed to two judges of the appeal court for immediate execution of the alimony judgment, and this was ordered to be paid by the husband on June 15, 1941.

All this is very bewildering, and the plight of the wife is evident from the fact that until the judgment of the appeal court is handed down she will not know whether, according to the court of Quebec, she is married or not, or whether she is entitled to the alimony which has been ordered to be paid to her. There would not, of course, be any question about her status if Quebec judges were compelled to observe British constitutional law.

Then most folks get the kind of relief that makes you feel better from your head to your toes. Just be sure you get the genuine Carter's Little Liver Pills from your druggist—24¢.

## MALE SEX SELECTED

Mr. Green's article of August 12 claims that St. Paul in the closing verses of Gal. 3 absolutely nullifies the claims of British-Israelism.

It says: "For as many of you as have been baptized into Christ have put on Christ. There is neither Jew nor Greek, there is neither bond nor free, there is neither male nor female: for ye are all one in Christ Jesus. And if ye be Christ's, then are ye Abraham's seed, and heirs according to the promise."

It should be obvious that instead of contradicting B.I. claims (which rests on selection), it confirms it.

For instance, in the reference made to "male and female," it is clear that whether we be in Christ or not, we are still nevertheless "male and female," and have as such our particular functions and capacities to perform. Christ selected the male rather than the female for His Apostles; and St. Paul, who makes the above statement, established similar distinctions.

Therefore, there was and is, a choice made regarding the sexes in Christ's work, which many Christians fail to appreciate. Some people "superficially" might put this as "favoritism," but in reality it is one of selection according to ability.

At the present time we are witnessing a conflict as to which nation or nations shall represent the head. God says that Israel shall be the head and not the tail, but the Germans and kindred nations think otherwise.

## FREEDOM OF WORSHIP AND SPEECH

A friend has just told me of a wonderful convention held recently at St. Louis in the U.S., at which some 500,000 Bible students came together to pray and deliberate on their faith.

Officials whose duty it was to supervise this large gathering, called it the most orderly and law-abiding they had ever had to deal with. In England, too, similar gatherings are held from time to time.

Why are they not permitted in Canada?

In Germany and Canada Bible students are liable to prosecution and concentration camps if they attempt to worship together. Can any one say what aid any Bible student ever gave to Hitler? They called him evil long before our government ever came round to that.

Before me lies a government pamphlet in which the Minister of Finance in appealing for funds says the following:

"Canada must preserve freedom of worship."

"No dictator must be permitted to prevent your worshipping God according to conscience."

If that is what Canada truly stands for, then why are Bible students not allowed to meet and worship together?

G. LOUGHLIN WILSON.

## C.C.F. PLATFORM

I wonder how many Canadians who read the resolutions passed by members of the Church of England in Britain, calling for "the unification of Europe as a co-operative commonwealth," and the administration of the monetary system so that "what the community can produce is made available to the members of the community, the satisfaction of human needs being accepted as the only true end of production," realize that this is the program offered to them by the C.C.F., or Co-operative Commonwealth Federation of Canada, with its slogan of "Production for need rather than profit."

The C.C.F. has occasionally been asked to change its name to the Labor Party of Canada, but in the present connotation of the word labor, that is too narrow a scope for the C.C.F., which should embrace every section of life in the Dominion. Farmers (many of whom are already co-operating successfully), trade union workers, office workers, teachers, bank clerks, the aged people and the unemployed will find well defined planks in the C.C.F. platform toward the solution of their problems. That is why the C.C.F. members in the Dominion Parliament are known as the Ginger group. They want to do something for Canada, and they are agreed as to what it is.

JEAN FERRAR.

Esquimalt Council

Willingness to lease a portion of Saxe Point Park to the federal government provided they would be able to reclaim the property at a reasonable date after the close of the war, was expressed by members of the Esquimalt Council last night.

Writing on behalf of the Department of National Defence, Major W. G. Swan told the council the department wished to lease the property month by month. If monthly terms could not be arranged, a year-by-year arrangement would be satisfactory.

"At that rate they could keep the park property forever," said Councillor Albert Heald.

"I think we should be given the right to terminate the lease," said Councillor Frederick Eaton.

On motion of Councillor Eaton, the department will be notified the council desired to be in a position to reclaim the property following the war.

R. W. Mayhew, M.P., and Norman Yarrow, managing director of Yarrows Ltd., sat in committee with the council for one hour and 40 minutes on the proposal of erecting a large number of houses for increasing numbers of shipyard workers in Esquimalt.

The council went into committee on the matter on suggestion of Reeve Alex Lockley, who said there should be no publicity on the subject until a decision had been reached.

Councillor Eaton objected and was the only member of the council to vote against closing the discussion to the press.

No report was given after the meeting.

Estimated costs of installing six-inch mains of \$1,759 and four-inch mains of \$1,384 on Dunsuir Road, from Lampson to Macaulay Streets, from the city engineer and water commissioner, were received and filed.

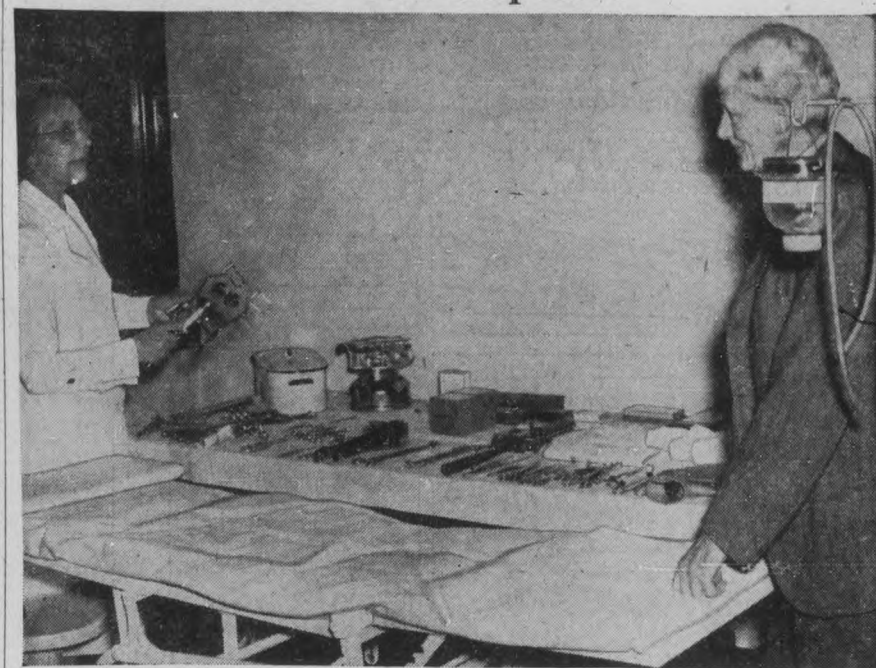

Notification from the Express Traffic Association of Canada that the municipality would not be granted free cartage service, was received and filed.

The police chief's suggestions of streets to be made into no-parking areas were received and filed. Also on suggestion of the chief, the streets and traffic regulation by-law amendments will be consolidated.

The chief suggested no-parking areas include both sides of Head Street, from Dunsuir Road to the gates of Work Point Barracks; both sides of Lyall Street from Gore Street to the barracks gates; west side of Gore Street from Head Street to Lyall Street; east side of Dunsuir Road from Esquimalt Road to Woolaston Street.

Offer of \$350 from Mr. and Mrs. V. C. Erickson for a lot between Anson Street and seafront, was accepted. An offer of \$80 for a lot on Admirals Road was turned down. Price of the lot was set at \$105.

## Red Cross Mobile Unit Inspected

Capt. Corry Wood and Miss K. E. Gray, R.N., president of the Victoria Chapter, Registered Nurses' Association of British Columbia, inspect mobile operating equipment provided by the Canadian Red Cross Society for use in event of emergency on Vancouver Island. Miss Gray is convener of the General Nursing Section, Vancouver Island, District No. 1, Registered Nurses' Association of B.C. There are seven chapters in the district.

## Caught by War's Toils Swiss in Predicament

BERNE (AP)—Switzerland's predicament today shows what can happen to a small, neutral country caught in the crossfire of economic warfare.

It demonstrates how economic jurisdiction over a nation can be accomplished without military invasion or political subjugation.

This is not to say that Switzerland has been conquered economically. Switzerland still is free, neutral and democratic. Yet—

1. Switzerland cannot export so much as one microscopic watch screw today without the permission of the German and Italian governments and, in some cases, of the British government. German control authorities actually have been installed at two stations on Swiss territory itself.

2. Although the country lives by imports, it cannot bring in so much as one pound of coffee without the approval of either the British or Axis authorities, or both.

3. Within certain limits, it must sell to Germany anything—notably manufactured goods—which the Germans choose to take from the country. And—

4. It must not only supply Germany but must advance credit out of its own pocket to producers selling to Germany whenever German payments lag more than three months.
